Mint of the United States
Phila.d. Feb 7th 1854.

Sir,

Your favor of the 31st ult. stating the number of dies of the year 1850 cancelled at your branch of the Mint, and also stating the number reserved for 1854 has been received. together with the enclosed Weekly Statement.

I have to acknowledge the receipt of your favor of the 31st ult in which you inform me of the dies of 1850 which cancelled at your branch, and stating the number of coining dies reserved for the year 1854.

I have to acknowledge the receipt of your favor of 1st inst the enclosures stated & also Package No 1 of coins reserved for the annual assay with a list of its contents,

Mint of the United States
Philadelphia February 15 1855

Sir,

On the 21st inst I received from the Secretary of the Treasury a letter and its enclosures addressed to him by Mr. Pratt in relation to a [illegible] and accounts connected with this department. The Secretary of the Treasury has requested me to get your opinion on the subject prior to pursuing any [illegible] in the Department.

I enclose a copy of Mr. Pratt's letter to the Secretary, and will thank you to report to me, upon the matters therein referred to, at your earliest convenience.

Very respectfully
Your obt. Servt

18th Feb. 1854

U. S. Branch Mint
Dahlonega Ga. 16th Feb. 1854

Sir —

Yours of the 1st Instant has been received — and inclosed you will please find Statement of Silver parted from Gold deposits from 1848 to 1853 inclusive as requested.

The amount, $362.19, paid to Depositors for silver, was credited to Gold coinage, because the payments were made in Gold coins & thereby Gold Coinage was reduced that amount — & debited to Silver Bullion, because the Silver contained in these deposits, increased the Stock of Silver Bullion on hand; but the 1st Comptroller of the Treasury has required me to change this amount to Gold Coinage & credit Silver Bullion. This arrangement will make both these acts wrong. — I have addressed the Secretary of the Treasury on the subject but have not yet had any answer.

The credit to "Bullion Deposit Profit & Lossⁿ on the 31st Dec. 1853 for the one half of one per cent for coinage from 1st April last to that time was $1792.42/100.

Very Respectfully Yr obt Servt,

Statement of amt. of
deductions &c

20th Feb, 1854

U. S. Branch Mint
Dahlonega Ga. 14th Feb. 1854

James Rogers Snowden Esq.
Director of the Mint –

Sir – Your letter of the 6th Inst. was received yesterday – I had last week, according to a request contained in your letter of the 1st Inst, forwarded you a statement of the amount of silver parted from Gold deposits, both for the Mint & for depositors, from the January 1848 to 1st January 1854 – but that request did not extend to the deductions made in the same time, & now I give you a statement of the amount of these –

	Deductions for Copper &c –	Gains in Assay fractions –	Total
1848	$76.16	84¢	$77.00
1849	78.75	1.10	79.85
1850	55.37	92	56.29
1851	36.72	97	37.69
1852	40.36	1.10	41.46
1853	18.72	90	19.62
	$306.08	$5.83	$311.91

The deductions for the one half of one percent for Coinage, from 1st April to 31st December 1853

was $1792 $\frac{43}{100}$.

The amount standing to the credit of "Bullion Deposit Profit & Loss" on the 31st Decr. 1853 was $2899.87 — being composed of the Coinage charges $1792.43 & $1107.44 the balance of Silver parted from 1st July 1853 to 31st Decr. less the alloy used in 4th Qr. 1853 — which amount was credited to this a/c under the instructions of your letter of 27th Oct. 1853 — but when the amount for Silver parted is taken out of this a/c, as directed by your late letter on this subject, the amount to the credit of this a/c will be $1792.43.

The Balance standing to the credit of Profit & Loss a/c on 31st Decr. 1853 — was $1,418.72 but if we add the amount of Silver parted from 1st July to 31st Decr. 1853 $1107.44 the balance would be $2526 $\frac{16}{100}$.

In the printed Form of abstract sent out by you in December, the only charges on the deposit are for parting & Coinage — & that was intended to be a full history of the deposit — hence I infer that the charges heretofore made for Copper alloy &c are not to be made now.

You will please pay Messrs N. Spaeth & Co. their Bills against this Branch — also settle the bills for the Gold Register & the other articles sent out by you, & send me

proper vouchers for my settlement with the Treasury Department.

The first bill of Messrs N. Lansingh & Co — unsettled was upon an order in Morris's hand

Yesterday in breaking down Sagatt, we broke one of our rolls — we have another pair with which we can get along until we can get another set, — which you will please order for us at once.

John D. Field Jr. Esq., Coiner has furnished me the inclosed drawing — which, he says, represents the exact size of the Rolls after being chilled, ground down & finished. One Roll would answer the purpose, but we had better have a pair if New ones & thus in case of accident, we will have an extra to fall on.

S. P. Morris Esq., furnishes the last Rolls & may have the moulds in which they were cast.

Very Respectfully

Annual Assay

18th Feb. 1854

Mint of the United States
Philad.a Feb. 18. 1854.

Sir

The trial made by the Assay commissioners on the 18th inst. of the Foreign dollars of your branch for the year 1853 resulted as follows, viz:

The registered value of gold coins was	$	800
Legal weight thereof	"	84.802
Actual weight of the same	"	84.806
Excess of actual above legal		004

The fineness of the same coins was 899.7 thousandths being 100.3 below the legal standard, but within the limits of deviation allowed by law. The trial was satisfactory to the Assay Jury.

Very Respectfully

Yours etc

Dahlonega Geo,

Relating to Mr Fulds
Mailage accounts,

Feb, 23d 1852,

Branch Mint of the U. S.
Dahlonega Ga. 16th Feby. 1854

Sir —

Your letter of the 9th Inst., enclosing a copy of a letter addressed by John D. Pitts Jr. Esqr. Melter & Refiner at this Branch, to the Secretary of the Treasury, was received by the mail of yesterday.

At the close of last year, after the Melter & Refiner had returned all the Silver Bullion in his possession, there was a balance charged against him of $302.79 — the legal allowance for wastage on the Bullion delivered to him during the year was $65.31 — leaving the deficit $237.48¢ I suggested to him the propriety of making application for a special allowance for wastage, as he believed it was impossible that the limit allowed by law for wastage could be made to cover the actual waste, or loss, of Silver when used as a material in refining Gold to the extent now required.

Previous to 1851, the receipts being chiefly Georgia and Carolina Gold, which contains much less Silver than the California gold, there was but little refining done, especially as the alloy was then composed of 3/4 to 7/8 of Silver — but as soon the influx of California Gold made more frequent refining necessary, the losses in Silver began to occur; for instance in 1852, the deficit in the Melter & Refiner's Silver acct

was $128.36¢ & in 1852 it was $291.17.

These amounts exceeds considerably the legal allowance for wastage, (as much as the deficit of 1853 did,) but my predecessor credited the Melter & Refiner, and charged these amounts as a necessary loss to Profit & Loss acct.

I did not feel authorized, at the close of each year, to credit the M. & R. with any more than the legal allowance upon the amount of Bullion delivered during the year.

I have at all times urged upon the ~~hands~~ workmen the necessity for using the utmost care to prevent loss, and I believe that they have exercised as much care and caution as could be required. Accidents will occasionally occur, by the breaking of a bottle, by which loss is sustained.

The preparations and conveniences in the refining room are not so perfect and complete, as Mr. Field says, as they are at the Philadelphia Mint — and, in my opinion, it is hardly reasonable to suppose that they should be.

From what I can learn of its former condition, it is as well provided for work now as it has ever been, if not better. We have as many large tubs as I see any use for in the operation of refining such quantities of metal as we have to work with — & such other vessels, as are needed. It is true that the metal has to be removed from one tub to another by dipping — but when sufficient care is used, I see no necessity for much waste in this operation, especially when the quantity

of metal is small.

As to the necessity for a new mill for reducing the pots & crucibles, I cannot agree with Mr. Field. Upon the last grinding, I think, the sand, or sweep, was as fine as the samples forwarded to you sometime since. I am not apprised what the cost of such a mill as he wants, (like the one in use at Philadelphia) would be, but suppose, from his description of it, that the cost of putting up such an one here would be considerable & much more than would be justified by the anticipated saving in that way, even admitting that the mill in use here, were as imperfect as he thinks. The one we have is the Bogardus Patent, by which the sweeps are crushed with cast plates.

As to the mode of assaying — there has never been any other process than that by cupellation used at this Branch, and it is impossible, I supposed, that the assay of Silver can be made in this way as correctly as by the humid process.

I believe I have noticed every point that it occurs to me is material.

Very Respectfully

Sir,

I am preparing a tabular State-ment shewing the net expenses for each year from 1828 to 1853, inclusive, of the Mint & its Branches. In addition to the information you have already given me relating to this matter, I need the following items to complete my tabular State-ment, which I will thank you to furnish me at your earliest opportunity.

1. Deductions or deposits for each year, credited to the a/c of Profit & Loss.

2. Amount of gain or loss on sale of sweeps. In stating this, give the gross value of the sweeps and the net value realised for them each year.

3. Any other gains or losses during the period named.

Very respectfully

Acknowledging the
receipt of letter of 10th inst

18th Feb. 1854

Mint of the United States,
Philadelphia, February 18th 1854.

Sir,

I have received yours of the 10th inst. with its enclosure.

In reference to the amount paid to depositors for silver parted from gold, you remark, "that the 1st Comptroller of the Treasury has required you to charge this amount to Gold Coinage & credit Silver Bullion, this arrangement will make both these accounts wrong, and that you have addressed the Secretary of the Treasury on the subject."

By reference to the Act of 18 Jan. 1837, you will perceive that it gives, to the Director of the Mint, the general regulation and supervision of the business of the several Branches: your communicating on the above named subject, should therefore have been directed to myself, without troubling the Secretary with it.

The entry charging Silver Bullion and crediting Gold Coinage, under the circumstances named in your letter, corresponds with that made here in similar cases. I should have been

pleased, when you rec.^d from the Comptroller the letter referred to, had you forwarded me a copy of it, and I trust, hereafter, that this direction will be given to all similar communications.

Very respectfully

James Pollock

Supt, Br Mint
Dahlonega Ga,

Respecting Mr Silas
Harlan account,

Feb, 23d 1854,

Mint of the United States
Philadelphia, February 23d 1854.

Sir,

I have received your letter of the 16th in reply to mine of the 9th instant, respecting the allowance for Silver wastage for 1853 claimed by your Melter & Refiner.

It is the practice at this Mint to credit the Melter & Refiner for sweeps delivered by him to the Treasurer at their full value as ascertained from the Assayer's report thereupon. I infer from a remark in Mr. Fields letter on this subject, that he has not been thus credited. You do not notice this point in your communication. I think it important to draw this account with the value of the sweeps delivered by him to the Treasurer, before determining the balance against his account. Please state what this amounts to.

For the purpose of having a complete view of the entire operations of the Melter & Refiner affecting the question of a proper allowance for wastage I will thank you to have made out & forwarded to me his gold & silver acct. for the year 1853, embracing also his accounts as Coiner. In the meanwhile, I shall have this matter under consideration with a view to rendering my decision as soon as I hear from you.

Very respectfully,
James Ross Snowden

Transmitting
Statements &c

11th March 1854.

Branch Mint of the U. S.
Dahlonega 4th March 1854

Sir – Enclosed please find statement & assy requested by your letter received by last mail.

On the Books of this Office, there does not appear ever to have been any credit entered in favor of the Melter & Refiner for the value of the sweeps returned by him – and no credit was given that officer last year on this acct.

His sweep was thrown on the pile in the cellar, which has been accumulating for years, and it is impossible now to tell precisely what amount he is entitled to for last year.

Our assayer has been testing the value of the sweep, after having all the sand well mixed – and I hoped to be able to state the result of his assay in this letter, but he lost the metal yesterday in his operations, and I shall have to await another trial. Think I shall be able to forward to you by next mail.

I have delayed forwarding the vouchers as directed an account of the dreadful condition of the Roads in this section for the last two months & the difficulty of getting barrels of the proper kind.

The reason I did not address you in reference to the order of the 1st Comptroller was that I conceived that the entries had been made strictly in accordance with your instructions of last summer, submitted at the request of the 1st Auditor of the Treasury — & I thought it proper to state this to the Secretary of the Treasury in order to explain why I did not comply with the order of the Comptroller.

I enclose that portion of the Comptroller's letter bearing upon this point.

Very Respectfully
Your obt. Servt.

Branch Mint of the U.S.
Dahlonega Ga. 7th March 1854

Sir—

Our sweeps, upon measurement, amount to 98 Baskets of 82 lbs each.

This is the accumulations of 8 years—and as it has been customary at this Branch to credit the M, & R, with the value of his sweeps—it is impossible to say precisely what amount he is entitled to for the last year as his sweep was mixed with what was on hand—but as there was not much refining previous to 1850, I think his sweep for last year might be put down at 20 Baskets.

The first assay made by our assayer shewed the value to be 22f per lb of 5000 but as he lost the silver, he made another trial and the result was, silver & gold, 14f per lb.

The Melter & Refiner is not satisfied with these tests—and if an opportunity offers I will forward you a sample of the sweep from which these tests were made.

We had the sand all well mixed & took a small quantity from every few baskets as it was being measured & then stirred up the sand thus collected, & had the tests made.

The samples forwarded to you sometime since were taken from the top of the piles in the cellar, and the average value of them

Mar. for Gold Dollars, 96¢ per lb.

With great respect
Your obedient Svt.

Director.

Hon James Guthrie
Sec. of the Treasury
Washington City.

Mint of the United States,
Philadelphia, March 15th, 1854.

Sir,

I have received from the Superdt of the Branch Mint at Dahlonega a statement respecting the claim of the Metals Refiner for wastage for 1853 in the settlement of his account of silver. From this statement it appears that it has not been the practice at this Branch to credit the Metals Refiner for the sweeps delivered by him to the Treasurer. Mr. Patton estimates, that about 1640 lbs of sweeps were thus delivered, for the year 1853 which at 14½ cents per lb would yield $237.80. From the information furnished to me, I am perfectly satisfied that the Metals Refiner should be credited in the settlement of his account of silver for 1853, with the amount of sweeps as above stated, which is sufficient to balance his account. I have accordingly directed the Superintendent to allow said credit.

I herewith send you Mr. Fields letter, enclosed in yours of the 8th ult which you therein requested me to return to the Department.

I have the honor to be
Very respectfully,
Your faithful servant

15th March. 1854.

Mint of the United States
Philadelphia March 15th 1854

Sir, Your letters of the 4th & 7th inst. accompanying certain statements & accounts respecting the claim of your Melter & Refiner for wastage for 1853 in the settlement of his account of Silver were duly received.

From your statement it appears that the M & R. delivered to the Treasurer, for the year 1853, about 1644 lbs. of sweeps, which at 14 cts per lb. would yield $229.60, a sum almost sufficient to balance his account. Under those circumstances, I have to request that you will allow him credit for the amount required to balance his acc^t for 1853, viz. $237.48: which may very properly be done by crediting him for 1696 lbs. @ 14 per lb.

Whenever you can with a due regard for economy forward the sweeps to this Mint, I will thank you to send the entire amount on hand by the best opportunity & forward me a bill of lading therefor.

Very respectfully,

James Pollock

Requesting. Wahenya Branch
Mint / accounts relating
to Silver packed from pock
deposits for the Mint,

18th March. 1864,

Mint of the United States,
Philadelphia March 16th 1854.

Sir,

The extract from the letter of the 1st Comptroller of the Treasury, which you sent to me, explains the variations noticed by him, in your Silver Bullion Account.

The difference between your account and his statement, amounting to $362.22, seems to have been caused by payment, for silver parted from a gold deposit, having been made out of balance of gold coinage, instead of being credited to Silver Bullion Appropriation [illegible] this Mint, in consequence of a single warrant issued for the payment of the net value of a gold deposit even when silver has been reported as parted from the gold, for the benefit of the depositor. This mode of accounting is rendered necessary by the use of only one warrant as just explained: but at the close of the quarter, the Bookkeeper before closing his accounts, ascertains the actual condition of the gold & silver coins in the Mint as for by count, and compares it with the condition of these coins as appears from the books, and adjusts the two, by an adjusting entry, so as to produce a correspondence between the books and the actual count of the moneys.

I would propose to you to have an
examining entry made of the above, ready
to be for the purpose of presenting
this matter.

ovf

Mint of the United States,
Philadelphia, March 18th 1854.

Sir,

Yours of the 16th inst. has been received.

In reply to your query respecting the instructions issued by me to the Supt. of the Br. Mint at Dahlonega as to the mode of accounting for the Silver parted from gold deposits for the Mint, I have to state, that on the 18th January I wrote to him as follows: "I have upon further consideration of the Act of 4th Feb. 1853 in relation to profits, concluded to regard the Silver parted for the benefit of the Mint and not for the depositor as belonging to the Mint for the payment of the ordinary expenditures, inasmuch as the expenses incurred in recovering said Silver amount to nearly the entire sum thus recovered. You will, therefore, credit 'Profit & Loss' with the Silver parted for the benefit of the Mint, and not 'Bullion Deposit Profit & Loss' so that you may transfer the amount to the Ordinary Account from time to time."

I presume that the Treasurer's account for the 4th quarter 1853 was prepared & forwarded to you, before he rec.d my instructions of the 18th January and that in his rep.s for the 1st quarter 1854, he will restore to the credit of Profit & Loss the amount taken out for Silver parted for the benefit of the Mint and placed to the credit of Bullion Deposit Profit & Loss.

In relation to the transfer of silver bullion from the Dahlonega Branch Mint to Portland I would remark that, upon receiving from the Sec. of the Treasury a letter enclosing the letters of the 1st Auditor & the Comptroller dated 28th October & 4th Nov. 1853 which he referred to me for an answer, I wrote to the Secretary of the Treasury explaining the action heretofore observed with reference to the transfer of surplus silver from the Branch Mints to Philadelphia, and received this reply dated Nov. 8th, authorizing the transfer to be made.

I accordingly directed the Supt. at Dahlonega to send his surplus silver to the Mint. Other assays of the bars rec.d from him made the weight of standard 2018.90, which at 121 cents per ounce yielded $2439.23, which amount less $400 retained to the Treasury by the hands of Mr. Field, the Melter & Refiner has been credited in a/c with the Supt. for the payment of expenses here on a/c of the Branch Mint at Dahlonega. The ~~[illegible]~~ The assays here, shew the intrinsic value of the silver to be 22.873 ounces equal $2.03 more than stated by the Dahlonega Mint & therefore the Melter & Refiner's a/c of silver should be credited therewith, leaving $2.03 to be credited to the treasury of the United States as profits on silver. As there is no Silver Purchase Profit & Loss a/c at this Branch, it will be necessary to credit

[illegible] among the [illegible] of Rollin
Deposit Profile [illegible]

Frm. Supt. Dahlonega.

Transmitting monthly Report of March Expenditures of 1st Dr. 1854.

Enquiries what is to be done in case of Mint receipts being lost.

15th April

April 1854

Branch Mint of the U.S.
Dahlonega Ga. 5th April 1854

Sir,

I have the honor to forward my report of the operations of this Branch for the month of March — also to forward the coins reserved for the annual assay during the same time with a statement of the contents of the package.

You will also find enclosed a report to the Secretary of the Treasury of the Expenditures of this Branch for 1st Quarter 1854.

I have received your letters of the 15th 16th & 29th March. The credit has been entered to the Melter & Refiner's Silver Acct as directed. The scraps will be forwarded now in a short time.

You will please have your Clerk to forward me the receipts for the payments you have made for me, that I may include them in my Acts in settlement with the Treasury Department.

You will also please to urge the Manufacturer to let us have the Rolls ordered as soon as possible as the pair here operates badly — they had better

be forwarded by Express when ready.

Very Respectfully
Your Obt. Servt

G. M. Patton
Supt.

James Ross Snowden Esq
Director of the Mint
Philadelphia
Pa

Branch Mint of the U.S.
Dahlonega Ga. 7th April 1854

Sir,—

When a Depositor reports that he has lost the Treasurer's receipt for the Bullion deposited for coinage, shall I require him to do anything more than to file an affidavit that the receipt is lost or mislaid, without being assigned by him, before I give him a duplicate receipt, or pay him the value of his deposit?

Very Respectfully
Your obt. Servt.
J. M. Patton
Supt. & Treas.

James Ross Snowden Esqr.
Director of the Mint
Philadelphia,
Pa.

Procured a few bonds
for lost receipts & ~~[illegible]~~

To. T. L. Smith Esq
1st Auditor
Treasury

Respecting disposition of the proceeds of Silver Bullion sent from Washoe & enclosing copies & extracts of letters & instructions to the Supt. of the Mint & Br. Mints.

13th. April 1864.

Mint of the United States,
Philadelphia, April 13th 1864

Sir,

I have received your letter of the 8th inst in which you ask for my orders in relation to the manner of the disposing of the net proceeds of silver bullion sent to Philadelphia from the Dahlonega Branch Mint and about to be sent from the Charlotte Branch.

On the 6th Nov. 1853, the Comptroller of the Treasury recommended in writing to me, that the coinage of silver bullion at the Dahlonega and Charlotte Mints be sent to Philadelphia and paid for in other coins to enable said Mints to pay deposits in the same coin.

On the 8th of the same month and by the sanction of the Treasury, upon this subject, I employed the following language. I am about to make regulations by which the price paid for the coinage of depositors shall then be paid in gold coin, paying them at the rate of 920 cents per ounce, our price for silver. In all cases where the necessity of returning the silver coins to these Mints and the proceeds of silver bullion they should not be paid in

the needs of the Branch Mints have not been
as yet to supply them with materials

No objection having been stated to the
course, I have accordingly placed the entire
proceeds of the silver bullion received from
Dahlonega since that time, to the credit of the
Superintendent of the Branch in my office with
an exception of $400 returned to him in silver
coins, by the hands of Mr. Fields, the Melter
& Refiner, who brought the silver bullion from
Dahlonega.

Now as the amount standing to the credit
of Profit & Loss on the books of the Dahlonega
Branch exceeds the balance of proceeds of 2021 oz
of silver bullion sent from that mint to Philadelphia
for coinage, I would propose that this sum
considered as part of the ordinary funds of
Treasurer of the Dahlonega Mint, to be dis
posed of in the purchase of materials on
account, or subject to the Superintendent d
if he should need any portion of it re
to him. As respects the Treasurer Bu
ofc, if any part of the said silver b
to that ofc, he can satisfy its claims
of the ordinary funds in his hands, th

[illegible] becomes a [illegible] of so much [illegible]
from the [illegible] [illegible] [illegible] [illegible]
[illegible] coins. [illegible] [illegible] [illegible] [illegible] [illegible]
the Treasurer's accounts would be properly adjusted
in a [illegible] manner, as his ordinary accounts would
be credited from time to time, as the statement
of expenditures at the Mint for his use should be
transmitted by vouchers duly forwarded at a time.
I find however, upon a review of his entire
[illegible], you are still of the opinion that
the mode suggested by you and concurred
in by the Comptroller should be adopted,
it will acquiesce, but it will involve on you
and your [illegible] some other stepping of time for the
purchase and payment of materials for the
[illegible] in Philad.a. I will thank you to
suggest such arrangement as will meet your views.

I send you copies of the rules
of the institution, which I have been free
to give to the Superintendents of the Branch Mints
[illegible] relative to the manner in which their accts
are to be kept. No change has been made in
[illegible] to the employment of workmen and
making the necessary expenditures for machi
nery, repairs, &c. at the Mint & its branches

the appropriations being under the direction as therein stated, of the Director and the Superintendents.

I am, very respectfully,
Your obt. servant
James [illegible]
Director.

T. L. Smith Esq.
Chief Clerk of the Treasury
Washington

To,
The Sec. of the Treasury

From
J. M. Patton Esq
Supt. Branch Mint
Dahlonega,

Respecting the legality
of a Minor making
a deposit of bullion
& ~~drawing~~ receiving
proceeds of the same
Directions Ans enclosed

18th May 1884

Branch Mint of the U.S.
Dahlonega Ga. 6th May 1854

Sir –

I have been informed that a case of this kind will come up at this Branch in a short time. Father & Son, (the Son then & still a minor) went to California – the Father returned sometime since, leaving his mining interests with his Son; – the Son has recently returned, & there having been a disagreement & separation between the Father & Mother, during the Son's absence, the Son now refuses to account & settle with the Father according to the contract made between them it is alleged.

If the Son makes a deposit, I am informed that I will be notified not to pay over the proceeds of the deposit to him. I informed the party that I should feel it my duty to withhold payment until I could take your direction in the premises.

Sometimes minors who have been permitted by their parents to go to California, return & desire to make deposits; shall I require a person that I know to be a minor, to procure some friend in whose name he can deposit his Bullion – or may I receive it in his own name? The latter

course was pursued by my predecessor - upon the ground that he has been recognized as of full age by the conduct of his parents - & that the Treasurer must persons the individual in possession of the Bathing to be the legal owner.

Very Respectfully
Your Obt. Servt.

enclose.
Aug 12. 1854

Branch Mint of the U.S.
Dahlonega Ga. 4th July 1854

Sir —

Yours of the 19th June was not received until to-day — having been sent to New Orleans.

My report for the 2nd Quarter was forwarded before its receipt.

According to the instructions in your letter of the 27th Oct. last — "Bullion Deposit Profit & Loss" acct. was opened & has been credited with the coinage charges from 1st April 1853 to the 30th ultimo — and the amount due the Treasury on this account was, on the 1st Inst. $2.441.$\frac{65}{100}$

In that letter, you say: "At the close of each fiscal year you will transfer the profits standing to the credit of "Bullion Deposit Profit & Loss" to the Treasury of the United States agreeably to the act just cited".

The act cites, declares — that "the money arising from this charge of one half per centum shall be charged to the Treasurer of the Mint, and from time to time, on warrant of the Director of the Mint shall be transferred into the Treasury of the United States".

Now the question with me was

whether this amount was to be placed to the credit of U.S. Bullion account, at the close of each fiscal year, — or whether it was, by the Branch Mint, to be transferred to your Mint, and thus carried into the Treasury of the United States: and you will allow me, most respectfully, to suggest that the letters referred to by you do not, in my opinion, point out the mode by which this Fund is to get into the Treasury of the United States.

The package of sovereign & Eagle dies, requested on the 10th June, was received several days since.

Very Respectfully
Yr. obt. Servt.

Sir,

I have to acknowledge the receipt of your letter of the 4th inst., The transfer to the Treasury of the United States of the amount standing at your Branch on the 30th ult. to the credit of "Bullion Deposit Profit & Loss," is to be effected by placing the same to the credit of "United States Bullion Account"; and upon doing so you will notify the Treasurer of the United States of the fact. The amount thus placed will be subject to the draft of the Treasury Department at Washington.

I am very Respectfully.

Appropriations for this Branch for current fiscal year.

Mint of the United States.
Philad.a, August , 1854.

Sir.

The "Civil and Diplomatic Appropriation bill" passed at the late session of Congress, makes the following Appropriations for your Branch:

"For Salaries of Superintendent, coiner, assayer and "clerk, six thousand dollars;

"For Wages of workmen, three thousand, six hundred "dollars;

"For incidental and contingent expenses, including "fuel, materials, stationery, repairs, wastage, and purchase "of new scales, two thousand five hundred dollars.

I send this for your guidance in making requisition upon the Department for the current expenses of your Branch Mint for the present year.

I am, Very respectfully:

James Ross Snowden
Director

Jm Patton, Esq;
Superint.d Brch. Mint,
Dahlonega, Georgia.

Sept. 1st, 1834.

Articles enumerated by Mr. Mason to be ordered from Europe through Dr. Harrison. Comp. here for Dr. Benzons – & till R.a Supt.: As to articles requested – those not already sent shall be ordered. Enclosing list of articles forwarded Villa Seide – Enclose Lanning & Vail's bill. Can't get R. I. for sometime – an Supt. come over here?

Mint of the United States:
Philadelphia, September 1st., 1854.

Dear Sir:

The articles requested by Mr. Mason in his list (herewith returned) will undoubtedly be needed, and you will please send an order for them. Such articles are always procured for us through the agency of Dr. Joseph M. Harrum, formerly Assayer of the Dahlonega Branch Mint, now superintending the disposal of mint sweeps, in England and France. His address is "care of Messrs. Baring Bros. & Co., London"; they will send your letter immediately to Paris, where Dr. H. was, at last advices.

In the meantime, our Assayer says he can lend you two sets of gold assay weights, and one of Silver; likewise two balances (and a third, if necessary), which are now in course of packing up.

You mention Mr. Buivenue as having called at your office; if you see him again, please inform him that a catalogue of Instruments (a large pamphlet) of Lerebour's & Secretan, Paris, was lately sent here for Dr. Bonjano, by Dr. Harrum; and that if he passes this way on his return to N. O., we will thank him to take charge of it, unless he would rather it should go by mail.

The three carboys of pure nitric acid requested by Dr. Torrey, have been ordered. One of them will be sent in about a week and the other two, as soon as they can be prepared. The zinc for the reduction of chloride of Silver, the assay melter

and refining charts was sent by Prof. Booth some weeks ago
latter Officer is not at present at the Mint. The three
with faucets for drawing off acid are among the 11 boxes
parts &c: shipped on 25th. inst for which I sent you Bill of
on 29 ulto.

The Assay Balances received by the "Franklin" are
value each of 600 florins ($120.)

Of the articles furnished for the melting and refin
partment no list has been kept by Prof. Booth who order
I enclose the receipted duplicates of the bills therefor paid
which you will carefully preserve in case we should hereafter
have occasion for them. I transmit also a list of the
furnished for the Assay department of your Office a copy
was given by the Assayer here to Mr. Mason.

As to the articles specified by Mr. Grant I am unable
sent to give any definite information, in consequence of Prof.
absence. He asks it is under the impression that many, if
of them, have been forwarded long since.

I herein inclose bill of Messrs. Dennig & Co. for 1500
~~nitrate of Soda furnished the Assay office.~~

Respectfully, Your friend & obt. Servt.,

James Ropes

D. A. Butterworth, Esq.
Supt. U.S. Assay Office

P.S. For some days to come, I shall be much pressed on
matters, especially in regard to some regulations from
me from Washington. There are some points presented in

which, I would be glad to have a conference with you, and if you would come out here to-morrow or on Sunday it might be advantageous. You say that you think it would be advantageous for me to be at Rio Tock on Monday. Is there any special reason for my being there at that time? I had intended to postpone my visit until about the time you would commence operations, but I will come out sooner if necessary.

Transfer of proceeds
of Silver Bullion
from Galveston
to Treas U.S.
Oct 3

Treasury Department
September 30th 1854

Sir,

The correspondence which has recently taken place between the Accounting Officers and the Director of the Mint, in relation to the disposition required by Law to be made of the silver parted from gold deposits which accrues to the United States under the Mint regulations established in pursuance of the last proviso of the 14th section of the act of the 13th of January 1837, has been submitted for my consideration. The items in question, it would seem from the representations of the Director, cannot be properly considered as profits, the expense of parting being at least equal to the value of the silver separated. I cannot therefore see any reason for changing the established practice at the Mint in Philadelphia of carrying the value of the silver thus separated to the credit of the ordinary expense account. There being a considerable balance, in addition to the appropriation for the current year, to the credit of the appropriations for the contingent expenses of the Branches at Charlotte and Dahlonega, viz, at the former, of 4671.20, and at the latter of 7995.22

it being presumed that the amount which has accum-
-ulated at these branches will not be required for their
ordinary expenses, it is therefore thought best that the
amount transferred to Philadelphia from those
branches should be paid into the Treasury -
Should the Director be called upon at any time to
procure materials or machinery for either Branch
a requisition can be issued in his favor and the ne-
-cessary funds be supplied in Philadelphia -
You will therefore be pleased to deposit, separately,
the amounts transferred from the Branches at Charlotte
and Dahlonega, after deducting the expenses of trans-
-portation, to the credit of the Treasurer of U. S. as mis-
-cellaneous receipts -

Philad.a 9 Oct. 1844

Dear Sir

In reply to your letter of the 2d inst. I have the honor to enclose a copy of instructions forwarded by me on the 12th of July last to the Superintendent at Dahlonega for the proper conditions of the accounts. These instructions were written by you, in order that you might first examine and approve them before forwarded by you to the Superintendent, though I have no knowing of that fact, or of their receipt by the Superintendent you will observe that I have appended notes to the instructions, stating the particulars in which they have been modified by subsequent arrangements.

I have not sent copies of the final report to in the instructions, because I have had a special report to the Treasury of the 4th quarter of 1843, and the book copy retained here is so defective that it is not readily intelligible. The form of report in the enclosed is the same as that in the Mint. If you have copies of mine of prior date it will be necessary to make a few alterations, as specified in the instructions, and it would perhaps be best, in order that I may explain any special difficulties which have arisen in the accounts for Dahlonega, that the original should be forwarded to me, by you, for examination and readjustment in some form. — Keep a copy

Yours respectfully
James Pollock

Dr. L. Smith, Esq

Mint of the United States.
Phil. Oct 4. 1854.

Sir,

I have received your letter of the 30th ult. and in compliance with your instructions have this day deposited at the U.S. Treasury in this City to the credit of the Treasurer of the United States, the sum of $1684 66, being the balance in my hands of the proceeds of the Silver Bullion transferred from the Branch Mint at Dahlonega to the Mint in November 1853.

The Silver Bullion at the Branch Mint Charlotte was not transferred to the Mint and the only funds in my hands belonging to that branch are those arising from the proceeds of their reserved coins. As the balance on hand is only $224 24, and as I shall be called on to pay a part of this amount for expenses lately incurred for that branch, I have thought it advisable to retain the same and thereby

avoid making a requisition for so small an amount to meet the expenses just alluded to.

I have the honor to be

James Ross Snowden Esq.
Director of Mint
Philadelphia

Branch Mint of the U.S.
Dahlonega Ga. 6th Nov 1854

Sir -

I have the honor to forward a report of the operations of this Branch for the month of October - also package No 10 of Coin reserved for the annual assay with a statement of its contents.

I received some days since yours of the 6th ult, containing receipts of Messrs N. Lenig & Co. for $215.96/100 - leaving my balance against you, as stated, $1.684.66¢.

I suppose it will be my duty under the instructions of the Secretary of the Treasury to you, to transfer to the Treasury of the U.S. the balance of the proceeds of the Silver Bullion deposited with you last November, which is, (after the transfer made by you,) $754.57¢.

The Melter & Refiner reports the bullion received from Messrs Lenig & Co. as very inferior - says it contains considerable Muriate, requiring the use of Nitrate of Silver

upon each carboy. If it had been practicable I should have returned it to them.

Very Respectfully
Your Obt. Servt.

J. M. Patton
Supt. & Treas.

To
James Rogers Snowden Esqr
Director of Mint
Philadelphia
Pa.

November 18, 4

Sir,

I have received your letter of the 6th inst with the enclosures stated and also a package containing the coins received at your Branch during the month of October for the annual assay.

The disposition made of the proceeds of the Silver Bullion sent from your Branch to the Mint in Nov last, has received the approval of the Department with the exception of the $400 returned to you through Mr Tailor. This part of the transaction being still a subject of correspondence with the Dt Director, you will please not make the transfer in question until further instructed by me.

Your report of the inferior quality of the last acid received from Lennig & Co will be brought to their notice.

I am very Respectfully
Your Obt Servt
Robt Patterson
Director.

Nov 11, 1864

November 11th. 4.

Sir,

Your letter of the 8th inst. requesting to be informed of the object designed in returning to the Treasurer of the Branch Mint Dahlonega the sum of $800, on account of the Silver Bullion transferred from that branch to the Mint has been received.

In your letter of the 21st of Oct. 1838, to the 1st Comptroller expressing the proper disposition of the excess of Silver Bullion which had accumulated at the Branch Dahlonega, you suggested that the same be sent to the Mint at Philad.a to be converted into coins and that there be returned to the Branch Mint, a sufficient sum in Silver coins to meet the payment to depositors of Gold Bullion for the value of Silver parted from gold. a copy of the above letter, with one from the 1st Comptroller to the Secretary of the Treasury, dated Nov. 4, recommending the adoption of your suggestion was referred to me for perusal and to state whether it was advisable to make the transfer as suggested. In accordance with the above suggestion instructions were issued to have the Silver transferred to the Mint, with a view to its conversion into coin to be returned as above, but a regulation was about this time adopted, by which depositors were paid in Gold Coins for the Silver parted from their deposits and there being no necessity for a supply of Silver coin at that branch for the purposes

pursuing it was considered that the proceeds of the silver bullion might properly be made to defray the expenses of that branch for material, hospitalments &c. and the Dept. desiring to be furnished with silver coin for payment of changes &c. (the amount desired) was sent him in silver coin of small denomination, which amount was charged to him in my account, in which he had received a credit for the proceeds of the bullion transferred to the Dept.

Sir:

In the account of Silver Bullion of the Melter & Refiner at the Dahlonega Branch Mint for the 1st Quarter 1854 he claims credit "for 1696 1/3 lbs Sweeps at 14 p per lb: delivered by him in the year 1853 and ordered by the Director of the Mint to be allowed as a credit to this account Ozs: 2044.0821 $237.48".

Inasmuch as the Melter & Refiner received credit for the maximum allowance of wastage in his Silver operations in the year 1853 and sufficient wastage to make good his Gold account also

I cannot without further explanations see the propriety of the transaction and beg you will at your earliest convenience advise me on the subject

Very respectfully
your obt Servt
J. L. Smith

Auditor

November 29, 4

Sir,

I have received your letter of the 28th inst in which you desire an explanation as to a credit to the Melter & Refiner of the Branch Mint Dahlonega in the account of Silver bullion for the 1st Quarter 1854, "for 1696 6/3 lbs Sweeps at 14c. per lb delivered by him in 1853 and ordered by the Director of the Mint to be allowed as a credit to this a/c of: 203 84 $237.48."

At the close of 1853 after the Melter & Refiner of that Branch had delivered up all the Silver bullion in his possession, there was a balance against him of $302.79. The legal allowance for Wastage on the bullion delivered to him during the year was $65.31, reducing the above balance to $237.48. It appears that it had not been the practice at this Branch to credit the Melter & Refiner for the Sweeps delivered by him to the Treasurer, and therefore he had not been credited with the Sweeps delivered by him during the year 1853. As these Sweeps had been mixed with those which had accumulated during previous years it was impossible to ascertain the precise amount of the same. The Superintendent estimated the same at 1640 lbs which at 14 cts per lb would yield $237.80. From the information furnished to me, I was perfectly satisfied that the Melter & Refiner was entitled to a credit for this amount, and the

superintendent was instructed to credit him with the same in his settlement of his account of Silver for 1853.

I am, very respectfully,

Dec 11, 1882

Branch Mint of the U.S.
Dahlonega Ga. 1st Dec. 1854

Sir —

I have the honor to forward a Report of receipts of Bullion & Coinage executed at this Branch for the month of November just closed; also Package No. 11 of Coins reserved for the annual Assay, with a statement of its contents.

Yours of the 24th November, containing a statement of Dies forwarded for the use of this Branch in 1855, was received to-day; and also your letter of the 24th ultimo, covering "Regulations for the Mint, its Branches and the Assay Office".

I will take pleasure in enforcing those regulations, so far as they can be made applicable to the operations of this establishment. As our receipts are not very heavy or regular, it will occur to you that we frequently, for several days together, have no work for the hands; and it seems to me, when this is the case, that a more economical

practice will be to require the workmen to report themselves every morning, and if there is no work for them to do, to permit them to return to their homes, than to keep them in attendance during work hours, doing nothing but, (in the present season) burning wood.

There are several other points, which, I can perceive, apply with force to such an establishment as the principal Mint — but which I do not believe you would think of putting in force if you were here and acquainted with the daily operations of this establishment.

I make these suggestions with due deference, supposing that I am not required to enforce a regulation, which, in my opinion, will not be promotive of the public interest — I mean so far as the working operations of this Branch are concerned.

If I am mistaken in this view of my duty — I will, upon notification, require a strict conformity to the regulations prescribed.

Very Respectfully Yr. Obt. Servt.

Mint of the United States
Phila. Dec. 16th 1853.

Sir,

Your letter of the 8th inst. has been received.

The form of abstract sent you was for the purpose of showing how the 4 per cent premium on the Silver parting should be added to the net value of the deposit, the charge of 5 cents per ounce for parting allowed to by you is the rule at this Mint, and it was made use of in the specimen of abstract to demonstrate more clearly the calculations you were to make in order to dispense with the necessity of paying in silver dollars for the silver parting from the gold deposits. You will therefore adhere to the rule you have observed heretofore viz. charging 5 cents per ounce gross for said parting.

The scrap you have on hand, you will send to Dr. Jos. R. Farnum, care of Messrs. Baring & Brothers, London.

By one answering your enquiry as to being able to obtain a suitable pair of scales for your Branch, I have to request that you will let us know what kind you wish and how heavy you wish them capable of weighing.

Disposition of the Same

Dec 18, 1834

2.140.57
2.74
$1.903.09

December 18, 4

Sir,

I transmit herewith a statement of the sale of eighteen Barrels of Sweeps in London, belonging to your Branch by Mr. Jno. McCarmon, agent for the Mint, the net proceeds of which amounts to £2,110.07, which sum has been paid to me by the Treasurer of the Mint as per receipt attached to the above statement. From information hitherto furnished by you it appears that these sweeps were several years in accumulating, and that they were never regularly delivered by the Melter & Refiner, and that previous to the year 1853 he had received no credit for the same at which time he received a credit of an amount sufficient to bring his allowance for wastage within the limit allowed by law. Now as these sweeps were a part of the bullion with which he had been charged, and for which he should have been credited at least once during each year, but which not being done, except for the small amount in 1853 as above mentioned had to be covered by a sufficient allowance for wastage in the annual settlement of his account. The proceeds of the same over and above the estimate of sweeps in 1853 properly belong to the Government and may be added to the Mint Bullion fund at your institution or passed into the Treasury of the Mint. The latter course is perhaps preferable, and if for convenience you desire it to be done here I can make the transfer for you. No further steps will be taken until I hear from you on the subject. You will oblige me by stating the precise amount charged to the Treasurer and credited to the Melter & Refiner on sweeps account for 1853. This amount I will pay to your account here, on advice of which you may from the ordinary fund at your Branch hand over an equivalent to Gold Coinage which will be charged therewith, Gold Bullion being credited.

I am, very respectfully,

Director.

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

To/ Elisha Whittlesey, Esq.
Comptroller,
Jany 3, 1855.

As to proper disposition of proceeds from sale of branch Mint Dahlonega Ga. - upon case stated.

January 3rd. 5.

Sir:

In the course of many years operations there has accumulated, at the Branch Mint, Dahlonega, a considerable amount of what is technically termed "Mint sweeps"; that is a residuum of dirt, ashes, melting pots, &c. apparently valueless, but containing minute proportions of precious metal, recoverable by the operation of smelting. This sweep I directed to be sent to London for sale, as the most available means of realizing the proceeds, and the net amount derived therefrom, viz: $2,140.57 is now in my hands.

At this Mint, the Melter and Refiner's sweep when delivered up by him is assayed and an estimate is made of the standard bullion contained in it, with which he is credited, the Treasurer standing charged until he is reimbursed by the proceeds of sales, any deficiency being charged to "Profit and Loss". At the Dahlonega Mint I understand this course not to have been pursued, except with the sweep of last year, for which the Melter and Refiner was credited and the Treasurer charged $207.48 for disbursement the Treasurer's bullion fund has therefore a claim to reimbursement, from the net proceeds as above stated. But there still remains the sum of $1903.09, respecting the disposition of which it is proper that I should instruct the

Superintendent. As it will ultimately be requisite, however, that this question should come before you, in the adjustment of his accounts, it appears to me that it will be more satisfactory to present the matter to you now, with a view to elicit your opinion, so that there may be no difficulty hereafter with regard to it.

At first view it appears that this sum, of $1900.09, thus fortuitously derived, is one of those profits which, under the Act of March 4, 1853, c. 97, are payable into the Treasury of the United States. Such, indeed, was my first opinion. But upon further considering the matter it would seem to be incorrect thus to dispose of these proceeds. As I have mentioned, the Melter and Refiner (and Coiner) had not been credited any thing with the bullion contained in this sweep (with the single exception mentioned), although it now appears that in the course of years, the credit should have been the sum now derived, $1900.09. As a consequence of this deficiency of credit, it follows that the Wastage account in each year, had been debited at an unnecessarily large amount, and settled and adjusted on an erroneous basis. The effect of such error has been, primarily, an overcharge to the "Profit and Loss" A/c., and ultimately to the "Ordinary Account."

Upon a proper and equitable system, therefore, the ordinary account of that branch mint should have been $1900.09 credited by a diminution of wastage to that amount, than it is under the system which has been followed. Under such circumstances, it seems to me, that the proper disposal of that amount is, first to credit it to "Profit and Loss," and then transfer it, with the balances of that account, to the Ordinary Fund of the Branch Mint.

If you should acquiesce in this course, it will save the necessity of an appropriation to meet a deficiency of means in the current fiscal year, of about $1518., and inasmuch as, if such an appropriation should be required it will be necessary for me to request it with the least possible delay, you will confer a favor by informing me, within the briefest time which may be convenient, whether or not you coincide in the views which I have expressed.

I am, very respectfully,
Yours, &c.,
James Rothwell
Director.

at 15 p 100 for
purchase of Bullion

James Ross Snowden Esqr.
Director of Mint.
Philadelphia

Rec Jan 18. 1855

Mr Fields Letter
Enclosed Herein

Branch Mint of the U. S.
Dahlonega Ga. 8 January 1855

Sir—

Enclosed please find Report for the Year 1854 & also monthly report for December — & several statements & reports required to be presented through you to the Treasury Department — I also forward Package No 12 of Assay coins with a statement of its contents — and an a statement for the Year.

The Report to the Secretary "of the general condition of this Institution" &c — may not be such as is contemplated by the regulation. It is general in its terms, & as a report for each month of the financial condition of the establishment had just before been required, I suppose I have met the requirement of this latter regulation. If however I have not, I will thank you to notify me thereof. After allowing the Melter & Refiner his allowance for wastage on

his Silver acct – he is still $196.88 behind.

He has nearly 1500 lbs of scraps – which are doubtless sufficient to bring up his acct but for reasons stated in a letter to me, which I forward to you, he has declined to make a formal return of them at present.

You will perceive from one of the Statements intended for the Secretary that the Mint is indebted to the Contingent Fund $1,000 – for Silver Bullion purchased in 1838 – & this amount has been reported in every Balance Sheet prepared since that time. On the present Ordinary Expense acct. the balance in favor of the Treasurer of the Mint is $1,079-50¢.

I cannot perceive any good reason why the Mint should not pay Contingent Fund this $1,000.

Very Respectfully
Your obt. Servt

J. M. Patton
Supdt.

James Roß Snowden Esqr.
Director of Mint
Philadelphia

U S Br Mint M. & Office
Dahlonega 8th Jany 1855

Julius M Patton Esq
Supt. Br Mint Dahlonega

Sir it will be remembered that for the year 1853 two samples of sweep then on hand comprising the sweep of that mixed with that of several other years was sent by order of the Director to the Mint in Philadelphia which proved by the assay there to be of the value of No. 1 $0.425
and No 2 " " " $0.296
making an average of .36 cents per ℔ According to yours the gross value of the same sweep sold in London was about .31 cents per ℔ and by the assay from the same sweep here only produced about .11 cents per ℔ I regard it impossible to make a correct assay of sweep here for the reasons 1st that we cannot get a sufficient high degree of heat to make the sweep run enough from Char-coal having no Stone coal
2nd that our chimnies are not high enough to make sufficient heat

being only done 140 feet in length

Respectfully

John D. Field Jr.

Miller & Aspinwall

Sir Letter.
Enclosing Statement
of Expenditures by
Mint & Branches
for 4th Qr 1854

also Monthly &
Qr Report of
the Examination
of Books &c &c &
General Condition
of that Bk

Jan 15, 1855

January 14th 55.

Sir,

In compliance with the Act of March 4, 1853 c 97, I present herewith a quarterly statement of the expenditures of the Branch of the Mint of the United States at Dahlonega, Ga. for the 4th Quarter 1854.

I have the honor to be,
With great respect,
Your faithful servant,
James Rose Snowden
Director.

Hon. James Guthrie
Sec. of the Treasury.
Washington City.

January 15, 5.

Sir,

I present herewith a report of the Superintendent of the Branch Mint Dahlonega of the Monthly examination of the Books, Accounts, &c of that institution, made on the 30th ult. in pursuance of the General Regulations lately prescribed with your sanction for the government of the Mint & its Branches, also, a quarterly Report of the General condition of that Branch at the close of the 4th Qr 1854. made in compliance with the requirements of the above regulations.

I have the honor to be,
With great respect,
Your faithful Servant,
James Rose Snowden.
Director.

Hon. James Guthrie,
Sec. of the Treasury,
Washington City.

From & To

L McPatton Esq.
Supt. Br. Mint
Dahlonega

Samples of ores forwarded, but not rec.d

assays of specimens of ores rec.d continued

May 24. 1855.

Mint of the United States,

Philadelphia, January 15th 1857.

Sir,

I have received your letter of the inst. with the enclosures stated & also a package containing the coins received at your Branch during the month of December for the Annual Assay.

The Reports you have presented as required by the General Regulations lately prescribed for the Government of your institution are Satisfactory.

The Sweeps referred to in your letter should be thoroughly mixed and a sample of the same sent to this Mint for Assay, in this way an estimate can be made of the value of the Amount in the hands of the Melter & Refiner. After Assayed the Sweeps may ~~they~~ be delivered to you by that officer & he can ~~receive~~ receive a credit with ~~their~~ their value of the same as determined by an estimate based on the results of the Assay of the samples sent to this Mint.

With regard to the Slove

With regard to the $1000 worth of Silver now in the refinery and purchased, as I understand, by the Ordinary Fund, I agree with you that the value thereof should be restored to that fund. This may be done in ~~two~~ single ways. Either a draft might be obtained ~~on your bankers~~ in favor of your bullion fund for $1000, the proceeds of which can reimburse the ordinary fund, from which time this Silver will belong to the bullion fund as it properly should; or else, if you can part with the Silver from the refinery, the amount could be realized by receipts here, and then restored permanently to the ordinary fund.

Ranch Mint Dahlonega
16th January 1855

Sir –

John H. Field Esq. our Melter & Refiner, this day forwards to you two samples of his sweep for last year.
No 1 was ground twashes bar ores
No 2 — — — — mixed.
It is necessary to keep them separate.

There being considerable research in this section of country for several of the minerals, it frequently occurs that persons apply to us to make some tests of ores – which, when the furnaces are heated up in the business of the Mint, can be done with very little expense or trouble – and the practice here, as I am informed, for several years, has been to expend their ores to the action of fire & acids, when it could be done without preparing expressly for that business. The applicants would willingly pay a small fee for such services – as there is no other place in all this region of country where there can be a satisfactory test made.

It seems to me that one of the late Regulations prohibits this thing - it says - "no private or extra-official work can be done with or without compensation or demand by any officer clerk or workman".

My excuse for calling your attention to this small matter is that the regulation prohibits us strictly from making any such return, & the refusal to do so will produce much dissatisfaction with the applicants and they will charge us with the want of a spirit of accommodation &c. There would not probably be more than a dozen applications during a year.

Very Respectfully
Your obt. Servt.
J. M. Patton
Supdt.

James Ross Snowden Esqr
Director of Mint
Philadelphia

May 25. 5.

Sir,

Your letter of 16th January last was duly received, and laid aside for reply until the samples of Quicksilver stated to have been forwarded to this Mint on that day should arrive. These samples have not yet been received, and it is fair to infer that they have been lost in transmission.

As regards the subject of testing specimens of ores at your Branch, referred to in the above letter, I have to state that, ~~but~~ in view of the reasons presented by you, it will be well to continue to make incidental tests of this kind as have been your custom heretofore, on such terms as you may think proper. I would suggest however, that no charge should be made for the same, inasmuch as he to remunerate the Mint for materials.

I am, Very Respectfully,
Your Obt. Servt.
James Ross Snowden.

Treasury Department
Comptroller's Office
Jany. 22. 1853

Hon James Guthrie
Secretary of the Treasury

Sir;

I beg leave to enclose herewith a letter to this Office by James Ross Snowden Esq. Director of the United States Mint, in reference to the proceeds of "Sweeps" that had accumulated at the mint at Dahlonega during several years past.

The question presented by the Director is whether the proceeds of said Sweeps are legally payable into the United States Treasury under the provisions of the Mint Law of 3d March 1837, as profits, or to be transferred to reimburse the adjusting Expense account in as much as that amount was called upon at the close of each of said years to pay the wastage of the Coiner and Melter and Refiner, in whose hands said sweeps accumulated, and who would have been legally entitled to credit for their value in the annual settlement of their accounts, had the proper system of accoun-

=tability of those officers been observed.—

The result of a failure to credit the value of said sweeps in closing the accounts of those officers was to increase the amount of their wastage (not however beyond the lim=its prescribed by the act of 18 Jan. 1837) and consequently to tax the ordinary expense account the amount of their value more than was proper.— The Bullion and Ordinary accounts for those years having however been closed, I am of opinion that the first view of the subject taken by the Director is the ~~right~~ correct one, and that the sum thus accu=mulated be paid into the Treasury as prof=its to the credit of Miscellaneous Receipts more particularly for the reasons expressed in your letter to the Director of the Mint under date of 26. October last, in regard to the proceeds of Silver Bullion transferred to Philadelphia from this Branch Mint should the sum specified in the last clause of the Director's letter be required I beg leave to suggest that the same be drawn from the balance of appropriation standing to the credit of the Ordinary Ex=pense Account of that Branch, on the Book of the Treasury.— Very Respectfully

Elisha Whittlesey

Feb 8, 1855

February 6, 5.

Sir,

I have to acknowledge the receipt of your letter of the 29th ult. with the enclosure stated. In compliance with your decision as to the proper disposition of the proceeds arising from the sale of the "Dregs" of the Dahlonega Branch Mint, I have paid into the Office of the Asst Treas. U.S. at Philad. as a miscellaneous receipt, the sum of $8,903.09, being the net proceeds of the above Dregs with the exception of $257.48, the amount for which the Melter & Refiner of that Branch became a credit on Dregs account for 1853, and for which the Treasurer was charged. To avoid confusion in these accounts it will be necessary to return this amount ($257.48) to the Treasurer, to be passed by him to the credit of "Gold & Bullion - changing Gold Coinage therewith." I enclose the Asst Treas. certificate of the receipt of the above Amount.

It has been customary for the Auditor and Comptroller to address this Office respecting accounts, &c., at the Branch Mints - in this way I was induced to write to the Comptroller as to the above Dregs. Hereafter all such communications will be addressed to the head of the Department.

I have the honor to be,
With great respect,
Your faithful Servant,
James Ross Snowden

Proceeds of Sheep
paid into Treas.
U.S.

Oct. 8, 1858

Mint of the United States,

Philadelphia, February 5, 1855.

Sir,

I received on the 30th ult.o a letter from the Secretary of the Treasury enclosing a copy of a letter from the Comptroller on the subject of the disposition of the proceeds arising from the sale of the Sweeps of your Branch, a copy of which I herewith enclose, I ~~have to ask your attention to the concluding paragraph of the same referring to the balance~~ you will find in your remarks of the report, which ~~of appropriations standing to the ordinary expense account of that Branch on the Books of the Treasury~~ ~~appears to have escaped the attention of the Department.~~

The Secretary in enclosing a copy of the Comptrollers letter states that it is the opinion of the Department that the whole amount realized from the ~~sale of the~~ Sweeps should as recommended by the Comptroller, be paid into the Treasury as a "miscellaneous receipt". In compliance with this decision I have paid into the Office of the Ass.t Treas.r U.S. at Phil.a the sum of $1,903.09 being the proceeds of said Sweeps, with the exception of $237.48 the amount for which your Melter & Refiner received a credit on Sweep Account in 1853 & for which you were charged. This amount will be disposed of as indicated in my letter to you of the 18th December last. When advised of this disposition you will make the entries specified in the letter just referred to.

I enclose the Ass.t Treas.r certificate

of the receipt of the before stated sum.

I am very Respectfully

Director.

J. M. Patton, Esqr.
Supt. Pr. Mint

Ad to a Second Assay
of ingots thereof of
Dahlonega Gold
&c &c

Feb 24, 1855

Mint of the United States,

Philadelphia, July 14th 1855

Sir,

In reference to the proceedings of our annual Assay, the result of which I advised you in my letter of yesterday, I am requested by the Assayer of the Mint to state, that in consequence of the low report upon the gold of the Dahlonega Branch Mint and the tinge of iridosmium which was observable on the Assay Cornets, he was induced since to repeat the assay thrice and finds, instead of 898.6 thousandths, the fineness of 899.5 thousandths. The seconds of course cannot be amended, but I would suggest that as it has not been usual to publish these proceedings, such publication, if contemplated had better be withheld in justice to that branch Mint. unless it be to report ~~the~~ general results, as shown in the proceedings and resolution of the Commission, ~~as stated on any other, without the explanation on the table which accompanies it.~~ that the ~~whole~~ coinage of the year 1854 of the Mint and its branches was found satisfactory.

I have the honor to be
with great respect
your most obedient

Hon. J. Guthrie
Sec. of the Treasury

February 14th 65.

Sir,

In reference to the proceedings of our annual Assay, the result of which I advised you in my letter of yesterday, I am requested by the Assayer of the Mint to state, that as a consequence of the low report, upon the gold of the Dahlonega Branch Mint and the tinge of iridosmium which was observed on the Assay Bottom, he was induced since to repeat the assay twice and finds, instead of 898.6 thousandths, the fineness of 899.8 thousandths. The record cannot of course be amended, but I would suggest that as it has not been usual to publish these proceedings, such publication, if contemplated had better be withheld in justice to that branch Mint, unless it be to report in general terms, as stated in the proceedings and resolution of the Commission, that the coinage of the year 1864 of the Mint and its branches was found satisfactory.

Dear,

The trial made by the Assay Commissioners on the 12th ult. of the reserved coins of your mint for the year 1854 resulted as follows viz: the coins were received as $605 in value; the legal weight was therefore 32.719; the actual weight was found to be 8 thousandth in excess. The fineness of the bar from the melt of the coins was 898.6 thousandths being 0.4 below the legal standard but within the limits allowed by law; and the trial was therefore considered and reported as satisfactory. In consequence of the low report upon the fineness of your coins as above stated, and the tinge of iridosmium which was observable in the assay cornet, the Assayer of the Mint was induced subsequently to repeat the Assay twice and found instead of 898.6 thousandths the fineness of 899.8 thousandths. The second could not be ~~allowed~~ corrected but the subject was in justice to your Branch explained to the Secretary of the Treasury in a communication from me to that Officer under date of the 14th ult.

I have passed to your credit in my a/c current the proceeds of your Assay coins for 1854, viz: $605, also $267.48 the amount for which your Melter & Refiner received a credit on Sweep a/c in 1853, and retained by me out of the proceeds arising from the sale of your Sweeps. The proper disposition of this amount was fully explained in my letter of 18th December last. These two items amounting to $872.48 added to the balance previously due (viz 266.59) gives $1,109.08 as the amount standing to your credit in the before mentioned a/c

Process of Separating
Gold or metal from
Gravel.

Mar 26. 1855

Branch Mint Dahlonega
17th March 1855

Sir –

Yours of the 7th Inst. has been received. Your statement of $1109.$^{05}/_{100}$ as the balance standing to the credit of this Branch agrees with my accounts.

You will please cause the bills for the crucibles & Bet. lead pots to be forwarded to me, if they have been presented for payment; – that I may comply with the request of auditor Smith in presenting my aff. for ordinary expenses at the close of the Quarter.

Some weeks since I sent two samples of the Melter & Refiner's skeep to your address, but, I supposed, (as you have not made any mention of it,) that they have not been received.

The parting process, does not, I suppose, separate the metal, irid-osmium, from the Gold – is it the practice with you to extract it – if so, what is the process?

Very Respectfully
Yr. obt. Servt.
S. M. Patton

P.S. In any future shipments of Goods for this Branch, you will be pleased to have them consigned to the care of H. L. Chisolm Charleston — our late consignees, — Messrs Chambers Jeffers & Co, have failed recently —

J. M. P.

March 26. 5.

Sir,

I have received your letter of the 17th inst. The Samples of Ores stated to have been forwarded by you have not been received.

As regards the process of separating iridium from gold, I have to remark that it is first separated from melted metal by subsidence and afterwards purified by chemical treatment. It cannot be separated in melting deposits, because it is desirable to pour every trace of metal out of the crucible for the benefit of the depositor. The practice at this Mint may be briefly stated as follows.

When the gold and silver for granulations are melted together and stirred, the iridium is diffused through the whole mass, but the act of granulating continuing for some time a portion separates to the bottom, and hence we do not stop closely, but allow some metal to remain in the pot. These residues are collected, melted together in one pot, and after being allowed to settle for a time, the metal is poured off, and the iridium left behind. Many of the last residues are after several weeks work or longer collected and again treated with aqua regia by heat, and this last residue treated chemically to separate the precious metals from the iridium.

2. That portion of medium which did not settle in the granulating pot, remains with the gold under refined, when in the first or lengthening operation with copper, it is allowed to settle for a short time, and the greater part of the metal being cast, the residues are collected, melted and granulated as before (2) If the Assayer reports its presence in the ingots they are again melted, alloyed to settle, &c, &c.

3. The closely granular residues, first treated in porcelain or glass with dilute acid, to extract silver, and after being thoroughly washed, are next treated with nitromuriatic acid to dissolve gold. The clear solution is poured off, and water being poured on several times and poured off, these gold solutions are precipitated with copperas to recover gold. The residue (after pouring off gold solutions) is treated with gum to recover chloride of silver. After thorough washing the reduced silver is dissolved out by nitric acid and the residue well leached off all dissolved silver. This residue is again treated with nitromuriatic acid to recover the last traces of gold, and the solution reduced as before.

4. The crude osmium now remains impure. To purify it, it is fused in an iron pot with a little caustic potash & saltpeter (or better chlorate of potassa) extracted by water & then by muriatic acid, together with a little nitromuriatic, which leaves the native

alloy nearly pure.

I am, Dear Sir, respectfully,
Your obt. Servant

May 8.

Dear Sir,

On examination I find that the implements specified in the [illegible] of John Owen Esq. entered against your branch, were [illegible] call for and sent to the branch at Charlotte N.C. [illegible] was therefore no error in presenting this bill against your branch. I have caused the error to be corrected in your Account, a statement of which is herewith presented embracing payments made by me to the present date, which exhibits a balance in your favor of $2,089.68. I also enclose bon cheques for the above change.

I am, very Respectfully,
Yours
Rosecrans

James Ross Snowden Esq
Director of the U.S. Mint
Philadelphia

Sir:

In the adjustment of the Bullion account of J. M. Patton, Treasurer of the Dahlonega Branch Mint for the 1st Qr: 1855, he is charged with the proceeds of sweeps shipped to London in the year 1854 amounting to the sum of $2,140.57/100 and credited by part of the proceeds of said sweeps paid into the Treasury of the United States by yourself, amounting to $1,903.09/100 this appears from the books kept at the Mint and the Profit & Loss account and as no explanation is given showing how the amount last mentioned is arrived at, I will thank you for such information as will explain it.

I am under the impression that this transaction should flow through the "Bullion deposit Profit & Loss account," the items of that account under the laws being payable into the Treasury under the head of Profits when the "Profit & Loss A/c" wherein he has debited

and credited the sums aforesaid is reconciled in connection with the ordinary Expense &c —

I will be glad to have your views on this subject and also your opinion as to what are the proper items entering into these accounts respectively with reference to the Branches at Charlotte and Dahlonega

Very Respectfully
Your obt. svt.
T. L. Smith

Auditor

To/ J. S. Smith, Esq.,
1st. Auditor.

May 5th. /55.

Discrepancy between charge and credit for proceeds of sheep in the Dahlonega Mint &c. explained.

Mint of the United States
Phila. May 5, 1866.

Sir,

I have to acknowledge your favor of the 3d inst.

As regards the difference between the amount charged to the Treasurer of the Branch Mint Dahlonega, viz. $2,040.57 being the proceeds of the sale of the Sweeps of said Mint shipped in 1864, and the amount of the same paid into the Treasury of the U.S. viz: $1,903.09, I have to state, that these Sweeps were of several years accumulation, having never been regularly delivered by the Melter & Refiner, who previous to the year 1863 had not received any credit for the same. In that year however he was credited with the sum of $137.48 the estimated value of Sweeps delivered during that year, which amount, was necessary to bring his allowance for Wastage within the limit of law. The Treasurer having ~~thus~~ been charged with the amount thus credited to the Melter & Refiner the same was returned to him out of the above proceeds and constitutes the difference between his debit & credit as stated in the letter.

With regard to your suggestion that this transaction should flow through the Bullion Deposit Profit & Loss Account, I have to remark that the latter account was designed only to embrace the half-per cent for coinage authorized by the act of February 21st 1853. It would perhaps be convenient to include with the same account such profits as under the act of 4th March 1857 may be payable into the Treasury. I may add however, that in ordinary circumstances there are no profits of this kind, except those on copper coinage at this Mint. The profits arising from this last source are most conveniently accounted for in the copper account. It was only by oversight that the shrap at the Dahlonega Mint ensued to the Government as a profit, owing to the fact that in settling the Melter & Refiners account from time to time the shrap (with the exception before stated) was left unassayed ~~& unaccounted~~ was allowed to accumulate in the Treasurer's hands. The proceeds subsequently received were consequently a profit and as such payable to the Treasury of the Mint. This error will be corrected in future, the shrap being credited to the Melter & Refiner, and charged to the Treasurer as bullion, thus operating to diminish the wastage

account. When sold the net proceeds will be charged to Gold Coinage, and Gold Bullion credited.

I am, Very Respectfully,

T. L. Smith, Esqr.,
First Auditor
Treasury
Washington City

May 21, 63.

Branch Mint Dahlonega
14th May 1855

Sir —

I have received yours of the 5th Inst. with the receipts of Meggy & Moore & Crosson & also a statement of my acct — showing a balance in my favor of $1.039.63 — which agrees with my acct.

I enclose an extract of a letter received a few days since from Wm B. Randolph Esq. acting Treasurer of the U.S.

From it you will perceive that he refuses to admit as items of the U.S. Bullion acct, the amounts which I have transferred to it from time to time, under your instructions.

That officer has been a considerable time in entering his objections, as the first transfer was made 31st July 1854.

The Balance to the credit of U.S. Bullion acct 1st July 1853 was $26.850 — & from that time to 1st Jany 1855, was increased by transfers from Bullion deposit Profit & Loss & Profit & Loss acct to $3.700.03 — making the balance then $31.550.03 —

The other sum of $1,000, which Mr Randolph says ought to be disposed of, is, I suppose, the $1,000 paid out of the Contingent Fund in 1838 in the purchase of Silver Bullion for refining purposes.

I have, as he suggested, submitted a statement to the Secretary of the Treasury, in reference to the matter.

Very Respectfully
Your Obt. Servt.

J. M. Patton
Supdt.

James Pollock Esqr.
Director of Mint
Philadelphia

(Extract.)

Treasury of the U. States
May 4th 1855 –

Julius M. Patton Esqr.
Supt & Charlotte Mint.
Sir –

xxxxxxxxxxxxxxxxxxxxxxxx

You are charged on our books with $26.850 – being the original amt transferred to the Bullion Agt at Charlotte, less $3.150 drawn for & paid in September 1846 – & have a provisional credit for the $1.000 drawn for in January, which credit will now be confirmed, when you send us a statement to correspond.

The money transferred to your office for the purchase of Bullion, was money in the Treasury at the time of transfer, and it is still in the Treasury, but for a specific purpose & cannot properly be increased by a deposit of money which is to be covered (credited) into the Treasury. Hence the $3.711.$\frac{03}{100}$ should not be added to our Agt under present circumstances. But as that and another sum of $1.000 – ought to be disposed of correctly

I suggest that you make a special statement of these items, in appropriate details, to the Secretary of the Treasury, that the subject may be considered & disposed of

Very Respectfully
(Signed) Wm. B. Randolph
Actg. Tres.

Branch Mint Dahlonega
12th June 1855 —

Sir —

From the letter of Mr. R. Randolph, acting Treasurer of the U.S. an extract from which I forwarded to you some time since, it seems that he does not consider a transfer by me from Bullion deposit Profit & Loss a/c. to the U.S. Bullion a/c, as a payment into the Treasury of the U.S.

The matters referred to in his letter have, however, been arranged by the opening of a transfer draft.

Shall I at the close of the present quarter transfer to U.S. Bullion a/c, the balance standing to the credit of Bullion deposit Profit & Loss a/c as instructed to do last year?

Very Respectfully

J. M. Ellis
Supdt.

J. R. Snowden Esqr
Director &c

June 20. 8.

Sir,

I have to acknowledge your favor of the 20th inst.

In reply to your enquiry as to the disposition to be made at the close of the present quarter of the balance standing to the credit of "Bullion Deposit Profit & Loss Account", I have to state that, in view of the decease of the Treasurer of the U.S. referred to in your letter, it will not be advisable to transfer the above balance to "U.S. Bullion Account", but to let it stand to the credit of "Bullion Deposit Profit & Loss a/c". This balance will be subject to the order of the Treasurer of the U.S., and you will therefore please inform that Officer, at the close of the present quarter, of the amount standing to the credit of Bullion Deposit Profit & Loss Account.

~~The employed statement of Account shows~~ was a balance due from us of $[illegible].60. Since then I have paid St. Domingo 16th the sum of $[illegible], which reduces said balance to $[illegible]. The unfinished bill of St Domingo 16 is entirely broken.

We have recently been able to dispose of our Dumps at the Mints on satisfactory terms and thus avoid the risk and expense of shipments to Europe.

I would be glad to be informed of the
quantity of Stamps you have on hand, and your
opinion as to the best manner of disposing of
them. I may state that as the Farmers, engaged
therein, have now no consignments to have entered
from, here or New York of Paid Stamps I should not
could hardly expect them to take charge of the
Stock on hand. You may have to draw, in your
reply, you may state how much it would
cost to deliver the Stamps at New York or Phila-
delphia. You will observe by the report of
the Assayer which I enclose that Your Stamps
are of a low value, so far

Nov. 9th 1[illegible]

Sir,

I transmit herewith a report from the superintendent of the branch mint at Dahlonega, exhibiting the number of the entries, the examination of the books, accounts of that establishment for the month ending on the 31st ult.

I have the honor to be,
With great respect,
Your faithful servant,
[illegible]
Director of the Mint.

Hon. James Guthrie,
Sec. of the Treasury,
Washington City.

From So
Supt. at Mahlmyn

as to pilotering
papers sent by
Express

April 9, 1865.

Branch Mint of the U.S.
Dahlonega Ga. 14th Nov. 1855

Sir—

The filtering paper which you inform me in your letter of 2nd last was shipped 14th October, has not been heard from — the acid & copper forwarded since has been received — the package of paper has doubtless miscarried. You will please forward me by mail 10 or 12 sheets, which will answer our purpose until hearing of the missing package & you will also please send me 15 or 20 sheets of the printed form of abstracts, such as you furnished me with some time since. We cannot have that form printed here, & the demand for it is so small as not to justify it if we could.

Respectfully
Yr. obt. Servt.
J. McPatton, Supt.

Sa Rose Snowden Esqr
Director &c

(over)

P.S. The Melter & Refiner has this day forwarded by Express a Sample of the Sweep for this year which he begs you will have tested, so that he can be credited for it in his a/c at the close of the present Quarter.

November 20, 57.

Sir,

I regret to learn by your favor of the 14th inst. that the filtering paper recently sent you had not yet been received. Fearing that it may not come to hand and that you may experience inconvenience thereby, I send you to day by Express another ream of the same. I also send by the same conveyance the blank abstracts requested.

I will send the "bill of lading" for the missing filtering paper to day, to your Agent at Charleston.

I am, very respectfully,

James Pollock

Director U.S. Mint

Bell. Patten Esqr,
Supt. Ba. Mint,
Dahlonega,

November 20, 5.

Sir,

In reply to your favor of the 16th. inst. I have to state that the following paper referred to was shipped on the 12th. Sept. last by "Hermes line" of Packets. Enclosed is the receipt which was given when the package was shipped,

Very respectfully,

James Ryle Incorporated

January 1855

Branch Mint of the U.S.,
Dahlonega Ga. 25th Dec. 1854

Sir—

Your two letters of the 18th inst. were received to-day.

If it be determined that the proceeds of the Mint Sweeps shipped to London, shall be paid into the Treasury of the United States, I will thank you to make the transfer as you suggest.

The amount with which the Melter & Refiner was credited on his Silver a/c. for the returns of sweeps last year was $237.48

I had hoped that I would be permitted to use this amount, (the value of the sweeps) as the proceeds of a former shipment in 1847 were used — that is by transferring it to the ordinary Expense a/c.

Perceiving shortly after I came to this Office, that, in consequence of the increased expense in account of the increased refining required, the appropriation for Contingencies would be insufficient, I sou[illegible]

as you will recollect, that an additional amount be asked for in the Deficiency Bill of the last session of Congress.

You inquired, if I was permitted to transfer from Profit & Loss to the ordinary expense acc – whether or not the appropriation would be needed – and when I informed you that with that permission it would not be needed – you then instructed me to make that transfer of an amount sufficient to cover the increased expense. The Treasury Department did not allow the transfer – and the consequence is that the ordinary Expense acc. is indebted to the Mint $1.513.08¢. With the proceeds of these sweeps I had hoped to pay the Mint this balance and make some repairs to the Fencing around the Mint inclosure, which are very much needed. The fence around the Mint building and the garden is the one first placed here & as a matter of course is pretty well worn out, and a new one needed.

When I came here, I found no water on the premises except the well in the building used for the supply of the Engine.

I had a well sunk, & at this time last year it furnished a good supply of water — but now, owing to the excessive drouth, it is dry.

It has occurred to me that this last well ought to be sunk deeper & a chain pump placed in it — otherwise we are almost powerless in the event of fire — as the well in the building has a pump worked by the Engine, & we could not obtain any water from it until steam could be got up — & consequently would be useless in case of fire. We have a cistern to collect water when it rains — but that has failed as this season — and the Engine well, which ordinarily furnishes any quantity of water, is so low at present that we can barely get a sufficiency of water from it to carry on the current work.

I notice, from the Books of this Office, that the practice has always heretofore prevailed to transfer the balances from Profit & Loss to the Ordinary Expense a/c. as you directed me to do.

I enclose a copy, as you requested, of the rate

of charges to be made on gold deposits — which I find in an old Book of instructions furnished at the organization of this Branch.

I am preparing a ~~[illegible]~~ statement of the operations of this Branch for the present year, which will be forwarded to you as soon as possible after the close.

Very Respectfully
Your Obt. Servt.
J. M. Patton
Supt.

James Rush Snowden Esq.

Philadelphia

(Copy)

"The laws and usages of the Mint in respect to deductions from the value of Gold deposits for preparatory expenses.

The Assayer judges whether any deduction should be made upon the deposit and notifies the Treasurer in each case by writing in pencil upon his report.

The charges on Gold deposits are fixed, viz:

1st For toughening when the metal is too brittle and is above 900.

2nd For refining when below 900.
3rd For Silver alloy (now obsolete)
4th — Copper do.
5th For parting Silver.

In the first case the charge is 1 cent per ounce gross weight.

In the 2nd case the charge is 1 cent per ounce gross; but this charge is not made where the alloy is chiefly an

wholly silver, and where that silver is not separated for the benefit of the depositor.

But if the alloy be in any considerable degree copper or other base metal the charge is made.

In the 3rd case the charge is 12½ cents per ounce of silver alloy required; this charge is only made where the silver alloy already present in the metal falls below 25 Millièmes.

To explain this it must be noted that the synthesis of our Gold coin is:

Fine Gold	900
Fine Silver	25
Copper	75
	1000

(This charge can very rarely if ever be made and

In the 4th case the charge is 3 cents per ounce of alloy. This is made whenever the fineness is over 900 and under 975.

(Under the present synthesis I have made the charge whenever the metal was over 900, provided the charge would amount to 10 cents.)

In the 5th case the charge is 12 cents per

ounce gross. Silver is not parted for the benefit of the depositor unless it amounts to £5. after all expenses for parting and allowances for silver alloy.

No charge is made in any case if it does not amount to ten cents. The depositor is not charged for refining where that process is made for the benefit of the Mint."

The amount accruing to this Branch from these charges is a mere trifle annually — and I do not perceive that there is any necessity for suggesting a change.

The Secretary of the Treasury under date of 18th inst. having authorized the allowance of credit, to the Miller & Refiner of the Branch Mint at Dahlonega, of $196.$\frac{88}{100}$ from the proceeds of Sweeps of the year 1855, that sum being required to settle his Silver a/c for that year, after the legal allowance for wastage, provided the sweeps returned shall be worth that sum, I will thank you to inform me if the value has been ascertained and the amount thereof –

Very Respectfully
Your Obt Svt

T. L. Smith
Auditor

February 25. 6.

Sir

Your letter of the 21st inst. was received this morning. In reply I have to state that I have no information as to the value or accounting of the deposits of the Branch Mint at Dahlonega for the year 1855. Samples of the same were forwarded to the Mint for assay in a month last, but the gold on hand was not stated. It is presumable however, that the amount is equal to the sum stated in your letter viz. $196,000. It is proper to add that the above samples have not yet been assayed in consequence of the deteriorated condition of the melting rooms of the Mint for the past six months.

I am, very respectfully,
Your obedient servant,
M. C. Lindeberger

April 22, 1856.

(Copy)

Branch Mint of the United States.
Dahlonega Ga. 31st March 1856.

Sir,

In answer to your favor of the 19th Inst. asking a report as to the expenses attending the refining of gold bullion at this Branch, I have to say that I have found it impossible to make an accurate estimate, as the operations are so much mixed up with the melting, assaying and coining, but I have endeavored to make an approximation to accuracy to ~~accuracy~~, and think the conclusions to which I have come, may be relied on as sufficient accurate for the purpose for which it is desired.

The expense of refining is greatly increased at this point, by the freight upon the acids, for transporting which the Rail Road charges are excessive.

Refining for 1855 Dr

For Nitric & Sulphuric Acid used	$400.00
Salt, Zinc, Coal, tubs & Repairs of Vessels	110.00
Wages of hands	180.00
Wastage of Gold $21.82 Wastage of Silver $228.12	249.94
	$939.94

Cr.

By Silver obtained & charges for Copper alloy	561.94
Supposed value of Sweep	200.00
	761.94

This Statement shews that the expenses exceeded the value of the silver obtained and the amount of the charges for Copper alloy by $178.00

The value of Gold Bullion received and refined during the year was $116.662.00 weighing 6.161 25/100 ounces. The charge of 12 cents per ounce, when the silver is parted for the Depositor together with the

estimated value of the Mint sweep would have been about equal to the expenses; — but there was no case during the last year in which the Depositor was entitled to be paid for Silver and consequently the parting was all done for the Mint.

I have also made an estimate of the Expense of Refining for the years 1853, 1854 & 1855 — and it appears that the statement will be as follows;

Expense of Refining for 1853, 1854 & 1855 & the Wastage of Gold & Silver		$5.700
By Silver obtained for Mint & Charges for Copper &c	$4.050	
" Estimated value of Mint Sweeps for 3 years	750	4.800
Excess of expenses		900

The value of gold received in the 3 years is $849.177.28 = weighing 45.467 ozs.

From these two results it seems that the Silver obtained and Charges made leave a small amount of expenses unpaid each year in the refining operation; — and an additional charge of about 78 of one per cent would be required upon the value of the gold bullion deposited to meet the entire expense incurred in refining. It is proper to remark that the wastage of gold for 1854, though within the limit allowed the Melter and Refiner by law, was much greater than has been usual here.

Our suspicions were excited against a hand then in the employ of the Mint — but as I possessed no satisfactory or convincing proof of his malfeasance, I could only dismiss him, which was done at the close of that year.

We have no hands employed alone in that operation; — it is conducted principally by the hand who is the principal in the Coining Department, aided in both operations by the Melter of Deposits and the Assayer's Assistant as they may be disengaged.

Four hands only are now employed — the services of a fifth having been

dispensed with 1st January 1855. I am not prepared to recommend any further reduction. The compensation to hands fixed at the organization of this branch, & which has remained unchanged, was $60 per month. The design of fixing the compensation so remunerative, doubtless was to enable the Superintendent to procure the services of men of undoubted reliability. Living in this section is more expensive now than it was some years since and as there is no prospect that it will become cheaper, I cannot recommend any reduction. Any number of men might be employed at a lower rate, but in the end it might cost the Government more than it does at the present rate.

I hope this statement, though necessarily, may be satisfactory

Very Respectfully
Yr. obt. Servt.

(Copy.)

The laws and usages of the Mint, in respect to deductions from the value of Gold deposits for preparatory expenses.

The Assayer judges whether any charges should be made upon the deposits, and notifies the Treasurer in each case by writing in pencil upon his report. The charges on Gold Deposits are five, viz:

1. For Toughening when the Metal is too brittle and is above 900.
2. For Refining when below 900
3. For Silver Alloy
4. For Copper Alloy
5. For Parting Silver

In the first case the charge is 1 cent per ounce gross weight.
In the second case the charge is one cent per ounce gross; but this charge is not made when the Alloy is chiefly or wholly silver and when that silver is not separated for the benefit of the Depositor. But if the alloy be in any considerable degree copper or other base metal the charge is made.
In the 3rd Case the Charge is 1.29 cents per oz. of Silver alloy required.
In the 4th Case the charge is 3 cents per ounce of Alloy — this is made whenever the fineness is over 900. and under 975.
In the 5th case the charge is 12 cents per ounce gross
No charge is made in any case if it does not amount to 10 cents.

Sir,

Your letter of the 14th inst. with the accounts stated has been received.

The letter of the Secretary of the Treasury expressing the balance of accounts from the operation of the "navigation act of 1817" to be found, & furnished, by a printed circular lately distributed to the collectors & other officers, requiring an examination of the accounts, principally to the Department, he was opposed, on the part of the Treasury here, that the mutually entire of balance accounts by the proper officers of the Treasury, establishment, matter of generality, as the original impracticable, and upon this representation the Secretary was induced to accept the accounts stated to form the basis of the intercourse 1818. Under the appropriation, probably, that the printed circular has been transmitted to you, the letter depending the operation of its directions in the particular, mentioned, was also forwarded. Of course if you did not receive the circular, it will be presumed that it is not intended to embrace your office in any particular.

Very respectfully,

Philadelphia, July 21, 1856.

Dear Sir,

Col Snowden returned from the Restaurant on Saturday & reports Boyd & Pitt all right. As the Col goes to Washington to morrow & will see you while there you will have an opportunity of hearing of his examination &c in Luzerne

23d July 6.

Sir,

Your draft on me for $186.90, was presented this morning and I regret to say that I had to decline paying it on account of our ordinary fund being exhausted.

The Bills made by you in March last (on my own) were for the Branch Mint Dahlonega, against which you will please make out your bill (in duplicate or triplicate) for the same, and transmit it to me. It will be paid on presentation, or you may draw on me for the amount a day or two after you have transmitted the receipted bills.

Payment cannot be made for the rolls made recently by you for this Mint until after Congress passes the appropriation bill. In the meantime, however, you may have the receipted duplicate bills for the same, and I will pay the amount due as soon as the Mint receives any funds.

From U.S.
Capt. B. Mills
Dahlonega

Disposition of
Revenues of Mines
1854

Sept. 19, 1856.

U. S. Branch Mint
Dahlonega Ga.
11th Sept. 1855.

Sir —

Your favor of the 5th Inst. has been received. I enclose an estimate of expenses for the year ending 30th June 1856 as requested. Some repairs will have to be made before long to the mint building & also to the out buildings; hence the amount for incidental expenses is larger than would otherwise be required.

In answer to your inquiry in reference to the 4 barrels of sweeps returned for 1854 & recently sold by you, I have to state, that at the close of the year 1854, the Melter & Refiner having returned all the bullion in his hands, had a balance against him in his acct for silver of $196.88 after making him the legal allowance for wastage — that he afterwards returned the sweeps accumulated in the year 1854, & I credited his acct for silver that amount

that is $196.85 & charged the same to Profit & Loss a/c — intending when the proceeds were received to credit Profit & Loss therewith & charge myself in gold Coinage a/c.

Very Respectfully
Your obt. Servt.

J. M. Patton
Supdt.

James Ross Snowden Esqr
Director of Mint
Philadelphia

September 19. 6

Sir,

I have to acknowledge your favor of the 10th inst. with the enclosure stated.

With respect to the disposition of the proceeds of your drafts for 1854 I shall be glad if the course indicated by you can be carried into effect. But some time having elapsed since Report & Loss account was charged with the amount credited to the Mints & Exports since all your drafts for that year have probably been closed, the question arises can this be done without creating some confusion in your accounts.

In connection with this subject I beg leave to call your attention to a copy of a letter of the First Comptroller to the Secretary of the Treasury enclosed in my letter to you of the 5th February last respecting the disposition of the proceeds of

the Proceeds which have accumulated at your branch prior to 1854. The ruling of the Department in that case would seem to require a similar disposition of the proceeds in question.

Very respectfully,
Your Obt Svt.

October 16. 6.

Sir,

The dusts of the Branch Mint at Dahlonega for the Year 1854 were (under my instructions) in the Summer of 1855 sent to this Mint to be disposed of. The dilapidated condition of our Melting Furnaces prevented for several months an assay of the dusts, and in consequence thereof they were only recently sold. In the meantime, the Bullion and Ordinary accounts of that institution for the Year 1854, have all been closed, and I have under the ruling of the Department in a similar case (viz: the disposition of the proceeds of the dusts which had accumulated at that Branch prior to 1854,) paid the proceeds (viz $360) of the dusts referred to into the Treasury of the U. States, and enclose herewith the receipt of the Asst. Treasurer U. S. therefor.

I have the honor to be,
With great respect,

To Sec Treasury

Transmitting Certificate of Assay Commissioner as to inequality in weight of Coins of Br Mint & Dahlonega.

Feb 12, 1837

Mint of the United States,
Philadelphia, February 18th, 1857.

Sir:

In transmitting the enclosed communication as required by the Board of Assay Commissioners, it may be proper to state, for the information of the President and of the Department, that the value of the errors in the weight of the coins therein referred to, are as follows:

1 half eagle	$\frac{9}{10}$ of a grain	above	the legal weight	= .72	of a cent
1 do.	$\frac{8}{10}$	below		= .72	
1 Gold dollar	$\frac{6}{10}$	above		= .24	
do.	$\frac{6}{10}$	below		= .24	

It will be seen that the variance is as much above as below the legal standard; and that the two pieces of each denomination, if weighed together, would be correct in weight, and in like manner the four pieces produce a similar result. But as the trial exhibited an irregular adjustment of the individual pieces, the fact is certified by the Board, for the decision of the President.

I have the honor to be,
With great respect,
Your faithful servant:

James Ross Snowden.
Director of Mint, U.S.

Hon: James Guthrie,
Secretary of the Treasury,
Washington City.

Mint of the United States,
Philadelphia, February 12th, 1857.

Sir:

The Commissioners appointed for the purpose of making the annual trial of the gold and silver coins coinered at the Mint of the United States and its branches under the provisions of the act of the 18th Jan., 1857, met at the Mint on Monday, the 9th of February, 1857.

The following commissioners were present, namely, the Hon. John K. Kane, Justice of the District Court of the United States for the Eastern District of Penna. and Charles Brown, Esq., Collector of the Port of Philadelphia, they being commissioners ex officio, and Dr. A. A. Hayes, of Boston, Hon. Johnson Hinsdale, of Illinois, Maj. A. H. Bowman, U. S. Army, and Prof. Socrates Maupin, of Virginia, commissioners specially designated by the President of the U. S. The commissioners absent were James C. Vandyke, Esq. Attorney of the U. S. for the Eastern District of Penna., a commissioner ex officio, and Prof. M. Maxwell Evans, of New York, a commissioner specially designated.

A quorum being present the commission proceeded to the discharge of the duties assigned them; and having completed the tests and trials required by law, the following resolution was unanimously adopted, viz:

"That the examination of the gold and silver coins of the Mint and the branches for the year 1856, as on their judgment sufficient and the results highly satisfactory, except as to the trade dollars, the coins of which are above and full below the limits allowed by law as appears in the report of the committee on weighings, as follows: one half eagle $\frac{3}{10}$ of a grain below the deviation allowed by law; one half eagle $\frac{1}{10}$ of a grain above the same deviation; one gold dollar $\frac{3}{10}$ of a grain below the deviation allowed by law, the other $\frac{3}{10}$ above the same deviation; the commissioners recommend, therefore, that these facts be certified to the President of the United States in compliance

with the 32nd Section of the act of 18 January, 1854."

The record embracing the foregoing resolution is signed by all the Commissioners present, and the same is hereby certified to the President of the United States in accordance with their direction.

I have the honor to be, Sir
With great respect,
Your faithful Servant:
Samuel Rose Snowden.
Secretary
Board

To the
President of the United States.

FEB.—1857.

To Supt. branch Mint at
Dahlonega

Feb. 18th 1854

Report of the Annual assay of the Gold Coins assayed at this branch during 1853 and requiring an explanation of the irregularities in the weights found of the pieces.

Mint of the United States:
Philadelphia, 4th February 6th, 1857.

Sir:

The trial of the coins received at your branch of the Mint during the year 1856, for the Annual Assay, by the Board of Assay Commissioners which convened here on the 9th inst., exhibited the following results:

Coins of branch Mint at Dahlonega, Georgia.

Registered value of coins.	Legal weight.	Actual weight by trial.	Increased by test.
$233.00	Ozs. 12.523	Ozs. 12.540	899.5

Result of weighing five half eagles and three gold one dollar pieces of same branch.

	Legal weight	Actual weight of 1st piece	of 2nd piece	of 3rd piece	of 4th piece	of 5th piece
Half eagles	129	128 5/16	129 1/16	129	129	128 9/16
Gold dollars	25 13/16	25 7/16	25 15/16	26 1/16		

The report from which the above table is taken goes on to state that the Committee then re-weighed all the selected coins, and "the trial not only confirmed the excessive variation, but further developed a half eagle 1/16 of a grain above the standard weight and 3/16 above the variation allowed by law." The Committee then proceeded to test the results of their former weighings by different balances, and with a confirmatory result, and on examination of the weights used showing them to be correct, the Commission established the following resolution:

"That the examination of the gold and silver coins of the Mint and the branches for the year 1856, is in their judgment sufficient and the results highly satisfactory, except as to the branch Mint Dahlonega, the coins of which rise above and fall below the limits allowed by law, as appears in the report of the Committee on weighings, as follows: one half eagle 2/16 of a grain below the deviation allowed by law; one half eagle 3/16 of a grain above the same deviation; one gold dollar 1/16 of a grain below the deviation allowed by law, the other 1/16 above the same deviation: the Commissioners recommend, therefore, that these

shall be certified to the President of the United States in compliance with the 22nd section of the act of 18 January, 1837."

The record embracing the foregoing resolution is signed by all the commissioners present, and the same was certified to the President of the United States in accordance with their direction.

In transmitting the record as required by the Board of Assay Commissioners through the Secretary of the Treasury, I said, "it may be proper to state, for the information of the President and of the Department, that the values of the errors in the weights of the coins therein referred to, are as follows:"

1 Half Eagle	$\frac{3}{16}$	of a grain	above the legal weight		–	.72 of a cent
1 Do	$\frac{3}{16}$	"	below	"	"	– .72 " "
1 Gold Dollar	$\frac{1}{16}$	"	above	"	"	– .24 " "
1 Do	$\frac{1}{16}$	"	below	"	"	– .24 " " "

"It will be seen that the variance is as much above as below the legal standard; and that the two pieces of each denomination, if weighed together, would be correct in weight and in like manner the four pieces produce a similar result. But as the trial exhibited an irregular adjustment of the individual pieces, the fact is certified by the Board for the decision of the President."

In reply to this communication, the Secretary of the Treasury, writes me as follows: "You will be pleased to require an explanation to be given by the Superintendent of the branch Mint as to the causes of the irregularity in the weights referred to, that it may be laid before the President."

The following is the weight in grains of all the coins reserved at your branch during 1856.

Half Eagles 128 $\frac{17}{16}$ 129 $\frac{11}{16}$ 129 $\frac{2}{16}$ 128 $\frac{14}{16}$ 129 129 $\frac{1}{16}$ 129 $\frac{3}{16}$ 129. 129. 128 $\frac{5}{16}$

Gold dollars 26 $\frac{2}{16}$ 26 $\frac{3}{16}$ 26 $\frac{15}{16}$

I have written to you thus fully in order that you and the officers of your institution may be advised of all the facts elicited by the trial of the reserved coins of your branch for 1856, and the correspondence had upon the subject of the irregu

ities detected in the weights of them, and I have to request that such explana
as it may be possible to give in relation to the subject, may be forwarded
you at your early convenience.

Am, Yours respectfully,

James Ross Snowden.

Enclosing communication from Supt Br Mint Dahlenga explanatory of deviation in weights of assay bars for 1886.

March 4, 1887.

March 4th 7.

Sir,

As requested in your favor of the 16th ultimo I asked for an explanation from the Superintendent of the branch Mint at Charlotte respecting the irregular adjustment of some of the Coins struck at that institution. I have, to-day, received a reply to my inquiries on the subject; which I enclose for the consideration of the department and of the President.

The maintenance of the standard fineness and weight of the Coin of the United States is of the highest importance not only as regards our own Country but our reputation abroad. Hence the necessity of extreme care in all the operations connected with the Coinage. Such as the limit of deviation in the weight of the gold Coins is but the one quarter of a grain, each piece is separately adjusted. It appears, from the letter of the

Superintendent that the adjustments have made by an experienced workman, who has been similarly employed since the organization of the branch of the Mint in 1835. It is hereby stated that heretofore the coinage of that branch has been well performed, and the fineness and weight satisfactory.

The coinage the last year amounted to the sum of $102,890; and it appears that the actual variation below the legal weight on this entire amount is but 102 grains, which is much within the limit allowed by law, and confirms the report made in my letter of the 18th ult.: that the assay and weighings have been accurate, and that each delivery of coin by the coiners to the treasurer was satisfactory as to weight, but that some of the individual pieces were slightly above and below the legal allowance.

These considerations seem to lead to the conclusion that the errors in the pieces in

question was an accidental one, and is due to a want of proper care, and not to a want of honesty or skill, and that doubtless the officers of that institution will take measures to avoid such disagreeable occurrences.

I have the honor to be,
with great respect,
your faithful servant,

James Pollock
Director of the Mint.

Explanatory of
deviation in weight
of assay coins 1856

March 4, 1857.

Copy

U. S. Branch Mint
Dahlonega, Ga. Feb. 24. 1857.

Sir:

I received to day your letter informing me of the unsatisfactory result of the test of the assay pieces of this Branch Mint for the year 1856, and asking for an explanation of the irregularities in the weight of some of the pieces reserved, to be submitted by the Treasury Department to the President.

I was never more surprised in my life; as the pieces heretofore reserved at this Branch have proven upon the test to have been so accurately adjusted.

The hand who adjusts the coins last year, is the same one, who has performed that service since the organization of this Branch in 1838. He seems to be very skilful, and the correctness of his adjustments heretofore, shews that he is entitled to be so considered.

From this consideration and the fact that the coins when returned in bulk by the coiner were so clearly within the limits allowed by law, it was not, at any time during the year, deemed necessary to require the coins of any delivery to be weighed separately, as is provided for in the 26th Sect. of the Mint Laws — when the weighing in bulk shall not

prove satisfactory to the Treasurer.

I have prepared a Statement to accompany this letter, of the several deliveries of coins made by the Coiner during the last year; from which it will be seen that the coins when returned in bulk to me were always clearly within the limits allowed by law.

If I had supposed, or had had any reason to suppose, that each individual piece was not adjusted accurately and in the manner required by law, I should most certainly have weighed each piece separately, or caused it to be done; but for the reasons above stated it was deemed wholly unnecessary.

The hand who performed the adjusting must have become careless or made a mistake in his weights.

The above is all the explanation it is in my power to give as to the irregularity in weight of the pieces referred to.

Let me ask you to be so kind as to call the attention of the Secretary of the Treasury & the President to the very satisfactory tests heretofore made of the coins of this Branch Mint.

Very respectfully
Your obt Svt.

James Ross Snowden Esq
Director of Mint Phila.

Experiments

Sept 21. 1857.

Phila. Sept. 21st '57

Dr. Sir:

In reply to a note addressed to Prof. Booth a few days ago requesting him to state the items on the authority of which, the cost of bullion required for Mem. No. 1 is estimated at four or five thousand dollars, he requests me (in his note just received) to apply to you for the particulars of the calculation.

May I therefore trouble you to furnish the desired estimate at your earliest convenience: — for at that rate of charging, I fear the present appropriation will be totally inadequate to the demands of the case; and hence it becomes necessary greatly to reduce the amount of experimenting contemplated.

Very Respectfully &c

In relation to inferior
quality of acids
sent to that Branch &
ordering certain
articles

Oct 28. 1857

U. S. Branch Mint
Oakland Ga. 20th Oct. 1857

Sir —

On the 3rd of August last I requested Crucibles, black lead pots & 2 boxes Capels for this Branch.

The crucibles & the pots have been received, but I have not heard anything of the capels — they may have been over-looked.

The last lot of acid was so long on the way, (nearly two months,) that I think it best to procure some more before winter sets in. The last acid received is pronounced by the workmen to be the most impure we have ever had; — and I noticed that the stoppers of several of the carboys had not been made sufficiently secure.

Last year I ordered some filtering paper & received a quantity so marked — but it ought to have been marked what it was, blotting paper

for it cannot, I am satisfied, be used for filtering.

We made a substitute in the refinery of fine Sea Island Shirting & found that it answered the purpose finely — but the Assayer says he cannot prepare his fine gold without the filtering paper.

I enclose a specimen of some we had & have to request that you will cause some like it to be forwarded if it can be found.

Below find a list of articles now wanted, & you will please cause the receipts for these and some other purchases recently made to be forwarded so that I may include them in my account at the close of the year.

Very Respectfully
Your obt. Servt.

J. McPatton
Supdt.

James Roß Snowden Esqr.
Director of Mint
Philadelphia

(ready) 2 Boxes Capelles – (if not already sent)
(ordered) Assayer's Register – (a paper bound book of about 3 qrs – 12 inches long by 10 wide is the kind heretofore used here)
Have 1/4 Ream filtering Paper
ordered 30 lbs fine Copper for Alloy
ordered 10 Carboys Nitric Acid
" 2 do – Sulphuric – do.

Bullock & Breckenridge

Oct 28. 7.

Sir.

I have to acknowledge the receipt of your favor of the 20th ultimo.

I regret to learn that your last lot of acid proved to be of an inferior quality. It was shipped by Mr Phillips, who supplies the Fruit and its Branches with acids under contract, and whom we have always found a careful and reliable man. His attention was called to the subject on the receipt of your letter, but he was unable to offer any explanation of the difficulty. I would be glad if you would state in what particular the acid was defective. He has been requested to observe the utmost caution in

in shipping the 12 cartons ordered in your last letter.

The cupels ordered some times since are nearly ready for shipement.

The copper requested has been shipped.

Due care will be taken to obtain the balance of the articles ordered, of the best quality.—

As soon as the articles ordered are all shipped the bills for the same will be transmitted to you.

Very Respectfully,

A Baylor
reports for October

Nov 19, 1837

James Ross Snowden Esqr.
Director of Mint
Philadelphia

U. S. Branch Mint
Dahlonega Ga. 9th Nov. 1857.

Sir –

I have the honor to forward report for the month of October – & Package No. 10 of reserved coins, with a statement of its contents & also monthly statement for the Secretary of the Treasury.

This communication has been delayed by the absence, (without leave,) of the Assayer, Isaac L. Todd Esqr –

He left this place on the 23rd of October & did not return until the 3rd Inst.

In answer to the inquiry in Mr Linderman's letter of the 28th of October, desiring to know "in what particular the last lot of acid was defective", I have to state that it appeared to contain a considerable portion of muriatic acid – & required

a throwing down by the use of nitrate of silver before it could be used.

Dec 14, 1857

U. S. Branch Mint
Dahlonega Ga 5th Decr. 1857

James Pollock Snowden Esqr
Director of Mint
Philadelphia

Sir —

Yours of the 16th November has been received. The balance due this Branch according to the account forwarded agrees with my account.

There is one item August 14 — A. Potter & Co. for Pig lead $10.50 — that I do not understand. We have not ordered or received any Pig lead — it may have been procured for making the assay lead which were forwarded in January — but it was furnished in August & the assay lead in January — & this induces me to think that this item should probably be charged to some other Branch.

We have not yet received the capels that were shipped from New York 9th Nov — & about a week before the expiration of the last month, the assayer used the last one he had, and in consequence

of the want of capels, I have not been able to forward you a report for the last month.

I have written to our forwarding agent at Charleston, but have not received any notification from him that the capels had reached their place — I hope however that we will receive them in a few days.

Very respectfully
Your obt. Servt

J. H. Pattison
Supdt

Dec 17. 7.

Sir,

I have to acknowledge the receipt of your favor of the 5th inst.

The Pig lead referred to in your letter was received on the 14th of January last for the purpose of making assay leads for your branch Mint, but the bill therefor was not presented for payment until the 14th of August following. A part only of the article in question was used at that time. The balance remains in our possession and will be used for the same purpose, when required.

I regret to learn that you have not received the crucibs that were shipped to you last month from New York. In order to obviate as far as possible the inconvenience arising therefrom I forward you to day per Adams Express 100 more of the same

Dahlonega Ga. 14th Dec. 1857

Sir—

I have the honor, at this late day, to forward report of receipts of bullion & of coinage for the month of November—with a statement for the Secretary of the Treasury & also package No 11 of reserved coins with a statement of its contents.

Our assayer used the last cupel he had a few days before the close of the month & the operations of his office were suspended until the cupels shipped on the 9th of November were received, which was not until the 12th Inst.

Very respectfully
Your obt. Servt,
J. M. Patton
Supdt.

James Ross Snowden Esqr,
Director of Mint
Philadelphia

U.S. Branch Mint
Charlotte Ga. 15 March 1858

Sir—

In the Pamphlet of Instructions recently received, & particularly in section 13 & 16 of page 9 — 8 & 10 of page 13 — & 1, 2 & 3 of page 15, the Superintendent is required to issue his warrants. As heretofore there have not been any warrants used at this branch, you will please send me a form of each kind in use at the mint, that I may make mine to correspond.

From the regulation on page 13 — Sect. 8 — it appears that it is the intention that receipts shall pass between the Treasurer, Coiner & Melter & Refiner only quarterly. Heretofore the practice has been for these officers to pass receipts monthly. The M & R would receipt the Treasurer for the bullion delivered to him to be prepared for coinage — & the Treasurer would receipt the M & R for ingots & tops returned. And in the same way the coiner & Treasurer receipted each other. These receipts constituted the basis of the Treasurer's Journal entries & were forwarded with the Ap's at the close of the quarter. Is my construction correct?

The direction on page 9 — (in reference to the coinage and parting charges) is that these charges must be placed quarterly to the credit of the Treasurer of the U.S. I suppose this will be done by transferring quarterly these balances to the U.S. Bullion Ap. My reason for making this inquiry is that sometime since, when I made a transfer in this way, the Treasurer of the U.S. inferred one that I should not have made the transfer to that Ap, until a transfer warrant had been issued by the

H 1000.—

Charge P. & L. of credit G. Conger with H 1000.— by the bal.

Treasury Department.

I enclose a requisition of the Coiner for a pair of new rolls. The last pair obtained, made at Pittsburg, are pronounced by the Machinist to be very hard and excellent rolls - but he says they were not made true on the face - & that he cannot grind them true on the lathe here - which was bought twenty years since, and seems to be a very imperfect machine.

The strips, when rolled out, have to be put through the draw-bench some twenty times, & even then they are not regular and of uniform thickness.

The consequence is that there is much more difficulty in adjusting the pieces, than there should be. For the last year I have used extra precaution to see that the coins are within the legal limits. Upon a delivery of coin, I have selected every tenth piece, which I have weighed myself - & if a piece was found to be out of limits, I have required the whole to be re-weighed.

You will please send me a new grain weight & its subdivisions, as the ones we have, have been in use for a long time & may have worn a little.

Very respectfully
Yr. obt. Servt.

J. M. Patton
Supdt.

James Roy Snowden Esqr.
Director &c.

March 24. 8.

Sir.

I have to acknowledge the receipt of your favor of the 15th inst.

The rolls made at Pittsburg having in several instances proven inaccurate I have ordered those requested by you to be manufactured at Waterbury, Connecticut.

The grain weight and its subdivisions requested will be forwarded to you as soon as they can be made and adjusted.

Section 8. (page 18) of the "Instructions" lately issued prescribes that the various deliveries of bullion, ingots, clippings and coins, made during the quarter, should be summed up at the close thereof, and a warrant made for the same, as if the various daily deliveries of each kind constituted one delivery at the end of the quarter. The receipt of the Officer for the bullion received during the quarter is taken on the back of

the warrant. It appears from your letter that the practise at your Branch of the Mint is to sum up the deliveries of bullion at the end of each month. There is no objection to this course and you may continue it if you think proper, but you will probably find it more convenient to adopt the course pursued at this Mint.

Enclosed I send you forms of warrants covering the items which form the basis of the Treasurers Bullion accounts. I also send form of warrant for payment of bills for incidentals and contingent expenses.

With respect to the coinage and parting charges I have to remark that the same will be credited as heretofore, namely, the former to "Bullion Deposit Profit and Loss", and the latter to "Profit and Loss".

The balance to the credit of "Bullion Deposit Profit and Loss", must, in compliance with the act of March 4, 1853, be paid annually into the Treasury of the United States.

It is required that the balance to the credit of "Profit and Loss", shall from time to time be paid into the Treasury of the United States to the credit of

your appropriation for ordinary expenses, the amount thus transferred, will be subject to your requisitions when required for the support of your institution. In preparing the regulation on this subject it was thought that the most convenient mode to effect this transfer, would be to place the same to the credit of the Treasurer of the U. States, but on a further consideration of the subject I am of opinion that the most feasible plan will be to deposit the amount with the Asst. Treasurer of the U. States at Charleston S.C., taking duplicate receipts therefor, one of which you will enclose to me, that I may apprise the Department of the transfer. You will use your discretion as to how often this transfer shall be made. - it may be made quarterly, half-yearly or annually.

You will please understand that the deductions from depositors will not be available for the ordinary expenses of your Branch Mint, until they are paid, in the manner above stated, into the Treasury of the U. States.

I may add that the regulation requiring the deductions from depositors to be paid into the Treasury of the U. States, was prescribed at the

suggestion of the Secretary of the Treasury, in order that the appropriations from all sources might appear on the books of the Department.

Very Respectfully,
James Pollock
Director of the Mint.

Col Jas Ross Snowden
Director of Mint of U.S.

Dear Sir

We send you this day by Rail Road, one pair Chilled Iron rolls as pr your letter and draft of March 22d. We have packed them carefully and secured the cover to the box with screws, so that you can have them opened for examination without difficulty. We have only coated them with sweet oil for the same reason, and if you should send by any route whereby they would be likely to get damp we would advise some additional coating on the face of the rolls. The rolls are perfectly true and very hard. They are also made to the drawing as near as possible without gagues for the diameters of bearings. We have now made gagues for these rolls and shall be able to make more exactly the same. We should be pleased to make a pair of Castiel Rolls of the same dimentions, and would warrant them hard and perfect in every respect, for the sum of Eight hundred dollars ($800.00). The only defect in the rolls now sent, is what is called a pin hole, which is in the face of one of the rolls, but it is so very small we think cannot injure it. If it does we will replace it without cost to the Mint

Referring to the enquiry contained in your letter of the 27th ult. respecting the last lot (4 Bbls) of snaps received from your Branch Mint I have to state that the same have been sold and I expect the purchaser to call for them in a few days.

The Snaps nett about	175 lbs
Mint Assay $37.50 per 100 lbs	
Value therefore	$ 657.75
Bid for the same (accepted) 30.50 pr 100 lbs	
Profile Yield	$ 540.23

As soon as the snaps are taken away I will advise you of their exact weight and value.

Respectfully,

Saml Ross Snowden.
Director of the Mint

J. M. Patton Esq
Supt Br. Mint

From the Supt. at Pahlonega:

25 June, 58.

Accounts in appropriations for year 1858-59.
Warrants for the
Terms of Receipts & payment of deficits.

U. S. Branch Mint
Dahlonega Ga. 18th June 1858

Sir -

By the appropriation act lately published, I notice that the amount appropriated for this establishment is $6.500 - less by the sum of $4.380 than the Estimate submitted.

There is a considerable balance of the funds heretofore appropriated for incidental and contingent expenses unwrawn, & I suppose the intention is that the Secretary of the Treasury will from this undrawn balance supply any deficiency of the present appropriation. A few days since I received my blank warrants - (having been compelled to get them printed in Augusta)

It seems to me that in the use of warrants, it will be necessary to make a change in the receipt which is given to the depositor when he makes a deposit - or rather in the receipts taken from him, when the deposit is paid to him. I send you the form of receipt I found in use

here, & which I suppose has been used from the beginning.

When making up my report to the Department at the close of the quarter the last receipt (or order rather) is detached at the red line & placed on file here, the other portion is sent on as the Treasurer's voucher.

My inquiry is this — Is it necessary in addition to this receipt, to take the depositary's receipt on the warrant also?

Very respectfully
Your obt Servt.

J. M. Patton
Supdt.

James Ross Snowden Esqr.
Director of Mint.
Philadelphia
Pa.

June 25, 8

Dear Sir:

Your letter of the 18th inst. has been received. In reference to the difference between the amounts estimated and appropriated for your branch, I have to state that the balances of appropriations heretofore made and undrawn, were deducted from the amounts estimated as required for the next fiscal year. When received, the officer will draw upon the Department as if the whole sum had been appropriated for your institution.

The forms of receipts in use at your branch and adopted officially your letter, are not such as are in use at the Mint or the other branches. Herewith I send you forms of Warrant for payment of Gold deposited and of receipts to & from the depositors which have been adopted for the Mint. Your institution will hereafter conform to them.

I am, very respectfully, &c.

James Ross Snowden.
Director of the Mint.

Forwarding adjusting
balance of Weight

Dec 26, 1838.—

Mint of the United States,

Philadelphia, July 23, 1855.

The Director of the Mint gives notice, in pursuance of an authorization from the Secretary of the Treasury, and in consequence of the present accumulation of silver coin at the Mint, that from and after the first day of August next, and until further notice, the purchases of Silver for coinage will be paid for in Silver coins only, and not in Gold.

The Silver offered for purchase will be weighed, melted and assayed, as usual, and the standard weight determined therefrom, in ounces troy, to the hundreth part of the ounce; and will be paid for (as at present) at the rate of one dollar twenty-two and a-half cents per standard ounce. The receipt given at the first weighing must be presented by the seller or his order, and usually payment may be expected on the day following the date of receipt, or the second day following.

For the information of bullion dealers, country banks, &c., it may be stated, that according to the above rate of purchase, the yield of various classes of coin or bullion will be about as follows:

Five-franc pieces,	99 cents each.
Mexican and South American dollars,	106¼ "
Old Spanish dollars,	105 "
Revolutionary or "hammered" dollars, (often mistaken for the true Spanish dollar,)	101 "
Half-dollars of the U. S. coined before 1837,	52¼ "
The same since 1837 to the last change of standard in 1853,	52½ "
Spanish quarters,	23½ "
" eighths,	10 9-10 "
" sixteenths,	5⅛ "
Mexican quarters,	25 4-10 "

Quarter dollars are proportionally less productive of premium, while dimes and half-dimes, coined before 1837, have lost rather more by wear, on an average, than the premium would make up; those coined since 1837 to 1853, will average a premium of 3½ per cent. on their nominal value.

German, Swedish, Danish and Norwegian crowns,	111 cents each.
Old French crowns	114 "
German florins,	41½ "
Prussian and Hanoverian thalers	72 "

Fine silver 136 cents per ounce.

American plate, best manufacture, 120 to 122 cents per ounce.

Genuine British plate, 125 cents per ounce.

At San Francisco the purchases may be paid for in *Gold* or *Silver*, at the option of the Superintendent thereat, until a sufficient supply of silver bullion is received to meet the public demand for silver coin at that Institution.

JAMES ROSS SNOWDEN,
Director of the Mint.

Dec. 16th 1.

Sir,

In consequence of a conversation I had with Mr. Mason of your branch mint I have deemed it proper to send you an adjusting balance and set of weights. The latter have been most carefully adjusted by and compared with our standards & ought to suit to keep them our standards for those in daily use.

I send the balance and weights to you by express with directions to carry them carefully, and I hope they will reach in good order.

I am, very respectfully
Your obt. servant,
James Pollock
Director of the Mint.
